Handgrenade Talk:

Plain Talk ,1928 **The Hidden Psychology of Our Talking** David W. Shave,2019-04-01 This book introduces the concept of the unconscious entity and reveals it as the most important concept in psychology The book begins by presenting that the basic emotional need of humans is the need to be emotionally comfortable Anything that makes us emotionally uncomfortable is a frustration of our basic emotional need that then produces anger The bigger the frustration the more anger is produced If that anger is not immediately expressed it becomes repressed and then stored in our mind as unconscious entity making any unwanted feeling we have more unwanted Unconscious entity arises from our unexpressed anger It manifests itself as unwanted feelings The feeling we least want is the very feeling most likely to be produced by our unexpressed anger To reduce the intensity of an unwanted feeling or to remove it completely we must convert the unconscious entity in our mind back to expressed anger which we can do unconsciously when we talk to a listener about what we dislike or hate What we dislike or hate will be unconsciously equated with an unconsciously perceived part of our listener The anger is then directly expressed to that part and will be metaphorically hidden This reveals a new dimension in human communication that has the capacity to cure psychogenic illnesses Anger arising from our stored unconscious entity can also be reduced when it is expressed inwardly to ourselves as in any hard work exercise or self punishment or by punishment inflicted by others Reducing our unconscious entity makes us less emotionally uncomfortable which is the same as making us more emotionally comfortable That meets our basic emotional need indirectly This book shows how we unconsciously hide our expressed anger in our talking to a perceived listener We do it by utilizing unconscious predicate equating that this book shows for the first time anywhere is a prominent cognition of humans and not limited to or being diagnostic of schizophrenia as psychology and psychiatry now believe It reveals the hidden and real cause for homelessness PTSD pedophilia and why people senselessly kill as in mass killings This book is a must read not only for anyone associated in any way with psychology or psychiatry but anyone interested in the origin of their own unwanted feelings and wanting to rid themselves of them Thirty-minute Talks Merch Bradt Stewart,William Henry Waldron,1920 **Violations of Free Speech and Rights of Labor: "Little steel"** United States.
