

Chapter 13 EMERGENCY NURSING

Study material at <https://openstax.org/r/ncid13>

1. A nurse is providing care to the family of a client who was brought to the emergency department and suddenly died. Which of the following would be appropriate for the nurse to do? Select all that apply.

Ask the family if they would like to view the body.
Provide a private place for the family to get together.
Allow the family to inspect their loved one's body.
2. A client comes to the emergency department with a suspected airway obstruction. The emergency department health personnel manage the client as if the cause is complete airway obstruction based on which of the following?

High-pitched wheezing on auscultation.
3. A patient with a seizure is treated with the administration of which of the following medications?

Phenytoin (Dilantin)
4. A patient is admitted to the ED after a near-drowning accident. The patient is diagnosed with subcutaneous emphysema. The nurse will observe the patient for several hours to monitor for symptoms of which of the following?

Pneumothorax
5. A family member brings a patient to the emergency department. The family member states, "I think he overdosed on heroin." Which of the following would the nurse expect to assess?

Pinpoint pupils
6. Which of the following guidelines is appropriate for a nurse to implement while helping family members cope with the sudden death of a loved one?

Allow acceptance of the body by touching it, giving the family permission to touch.
