European Porcelain:

An Introduction to European Porcelain Harriet Wynter, 1972 European Porcelain in The Metropolitan Museum of Art Jeffrey Munger, Elizabeth Sullivan, 2018-05-09 Porcelain imported from China was the most highly coveted new medium in sixteenth and early seventeenth century Europe Its pure white color translucency and durability as well as the delicacy of decoration were impossible to achieve in European earthenware and stoneware In response European ceramic factories set out to discover the process of producing porcelain in the Chinese manner with significant artistic technical and commercial ramifications for Britain and the Continent Indeed not only artisans but kings noble patrons and entrepreneurs all joined in the quest hoping to gain both prestige and profit from the enterprises they established This beautifully illustrated volume showcases ninety works that span the late sixteenth to the mid nineteenth century and reflect the major currents of European porcelain production Each work is illustrated with glorious new photography accompanied by analysis and interpretation by one of the leading experts in European decorative arts Among the wide range of porcelains selected are rare blue and white wares and figures from Italy superb examples from the Meissen factory in Germany and the Sèvres factory in France and ceramics produced by leading British eighteenth century artisans Taken together they reveal why the Metropolitan Museum's holdings in this field are among the finest in the world p p1 margin 0 0px 0 0px 0 0px 0 0px font 14 0px Verdana

European Porcelain Maria Penkala, 1947 **Godden's Guide to European Porcelain** Geoffrey A. Godden, 1994 This new book from Britain's leading expert on ceramics breaks fresh ground It is the first thorough exploration of the mass of decorative porcelain from Europe imported into Britain and the United States during the nineteenth century There are many good books on continental porcelain but almost without exception they deal with expensive eighteenth century porcelains from the leading factories rare pieces that most collectors cannot afford or even expect to see outside a museum This book by contrast illustrates and discusses the more modest wares that so many people already own or collect and fills in many of the yawning gaps that abound in ceramic literature Chapters are devoted to the originals and the many copies of the well known Meissen or Dresden porcelains and to the reproductions of the valuable Sevres and Vienna wares Other chapters deal with the main types of popular and available continental porcelains Paris porcelains and others that are so decorative and collectible Full details working periods and the main marks are given for all the larger and more important European factories together with photographs of a comprehensive range of examples The book will be invaluable for all collectors dealers and auctioneers concerned with European porcelain in all its variety and for anyone owning or having an interest in decorative china It brings clarity to a vast and largely unexplored range of porcelain examples of which are to be found in houses throughout the world

European Porcelain of the 18th Century Peter Wilhelm Meister, Horst Reber, 1983 Fragile Diplomacy Maureen Cassidy-Geiger, 2007-01-01 While imported Chinese porcelain had become a valuable commodity in Europe in the seventeenth century local attempts to produce porcelain long remained

unsuccessful At last the secret of hard paste porcelain was uncovered and in 1710 the first European porcelain was manufactured in Saxony Meissen porcelain still manufactured today soon ranked in value with silver and gold This thorough and lavishly illustrated volume explores the early years of Meissen porcelain and how the princes of Saxony came to use highly prized porcelain pieces as diplomatic gifts for presentation to foreign courts An eminent team of international contributors examines the trade of Meissen with other nations from England to Russia They also investigate the cultural ambience of the Dresden Court varying tastes of the markets the wide range of porcelain objects and their designers and makers Individual chapters are devoted to gifts to Denmark other German courts the Holy Roman Empire Italy France and other nations For every Meissen collector or enthusiast this book will be not only a treasured handbook but also a source of visual delight

Ordering Colours in 18th and Early 19th Century Europe Tanja C. Kleinwächter, Sarah Lowengard, Friedrich Steinle, 2023-10-04 This book describes the international effort to give order to colours and thus facilitate communication about it two topics deemed essential to a modernising world that were also recognizably complex Expert essays will enhance readers understanding of the struggle to coordinate nature with art at a time when approaches to both were undergoing rapid change Ordering Colours shows how such seemingly trivial concerns as identifying the basic colours and disseminating appropriate colour diagrams had to meet philosophical scientific and professional needs across Europe Contributors detail the many schemes for colour systematization and their real world applications questions of concern to both academic and manufacturing focused investigators throughout the long 18th century They bring together original research and new thinking about landmark early modern studies to address important developments as well as neglected historical contributions of European arts sciences and economies This collection is an important addition to the libraries of all who are interested in public culture and manufacturing developments in the early modern period and is aimed at historians of art technology philosophy and physics
