Eve Of Regression:

Eve of Regression John Arthur Long, 1988 **AS Level Psychology Through Diagrams** Grahame Hill, 2001 This text uses material from the first edition of *Advanced Psychology Through Diagrams* combined with several new pages to meet the requirements of the new AS Level examination specifications *The Psychic World of Peter Hurkos* Norma Lee Browning, 2000-08 Book Description When the Dutch psychic Peter Hurkos approached Norma Lee Browning to write his story her reply was blunt You know better than to ask me I m the one who exposes people like you Norma Lee Browning is a professional skeptic a journalist with a reputation for exposing frauds and charlatans Hurkos persisted The result is this incredible book in which Browning skeptic proves beyond a reasonable doubt that Peter Hurkos is a man with phenomenal psychic powers a man who can conjure up the past envision the future and describe people and places he has never seen Hurkos has also participated in missing persons and murder investigations across the United States To fully describe a man like Peter Hurkos is not possible Ms Browning deals in facts in names and places and dates and these facts speak for themselves Author s Bio A well known columnist and reporter Norma Lee Browning has written numerous books including the fascinating *FACELIFTS Everything You Always Wanted to Know* She lives in Palm Springs California *Archaeological Fantasies* Garrett G. Fagan, 2006 This edited volume examines the phenomenon of pseudoarchaeology from a variety of perspectives The engaging and stimulating essays written by a diverse group of scholars scientists and writers explore issues including the differences between real and pseudoarchaeology pseudoarchaeology s increasing popularity and how the media especially TV has contributed to this the warping of genuine archaeology to fit national and other agendas pseudoarchaeology s potential risk to the genuine academic field of archaeology Including case studies such as the supposedly mystical Maya Nazi pseudoarchaeology ancient pseudohistory in modern India and surveys of esoteric Egypt this fascinating text will appeal to students of archaeology and ancient history as well as being of interest to the general reader

All in All Charles W. Durham, Kristin A. Pruitt, 1999 Readers will no doubt discern points of contiguity among the essays in this volume For example several essays investigate sources literary pictorial architectural and Milton s use of those sources in his poetry Others view Milton from the perspective of his age and seventeenth century contemporaries such as Michael Drayton and Aemelia Lanier **Exact Statistical Methods for Data Analysis** Samaradasa Weerahandi, 2003-10-17 Now available in paperback This book covers some recent developments in statistical inference The author s main aim is to develop a theory of generalized p values and generalized confidence intervals and to show how these concepts may be used to make exact statistical inferences in a variety of practical applications In particular they provide methods applicable in problems involving nuisance parameters such as those encountered in comparing two exponential distributions or in ANOVA without the assumption of equal error variances The generalized procedures are shown to be more powerful in detecting significant experimental results and in avoiding misleading conclusions **Ancestral Images**

Stephanie Moser,2018-09-05 Pictorial reconstructions of ancient human ancestors have twin purposes to make sense of shared ancestry and to bring prehistory to life Stephanie Moser analyzes the close relationship between representations of the past and theories about human evolution showing how this relationship existed even before a scientific understanding of human origins developed How did mythological religious and historically inspired visions of the past in existence for centuries shape this understanding Moser treats images as primary documents and her book is lavishly illustrated with engravings paintings photographs and reconstructions In surveying the iconography of prehistory Moser explores visions of human creation from their origins in classical early Christian and medieval periods through traditions of representation initiated in the Renaissance She looks closely at the first scientific reconstructions of the nineteenth century which dramatized and made comprehensible the Darwinian theory of human descent from apes She considers as well the impact of reconstructions on popular literature in Europe and North America showing that early visualizations of prehistory retained a firm hold on the imagination a hold that archaeologists and anthropologists have found difficult to shake

A Psychology of Hope Kalman Kaplan,Matthew B. Schwartz,1993-03-30 This book offers a new approach by combining the disciplines of history psychology and religion to explain the suicidal element in both Western culture and the individual and how to treat it Ancient Greek society displays in its literature and the lives of its people an obsessive interest in suicide and death Kaplan and Schwartz have explored the psychodynamic roots of this problem in particular the tragic confusion of the Greek heroic impulse and its commitment to unsatisfactory choices that are destructively rigid and harsh The ancient Hebraic writings speak little of suicide and approach reality and freedom in vastly different terms God is an involved parent caring for his children Therefore heroism in the Greek sense is not needed nor is the individual compelled to choose between impossible alternatives In each of the first three sections the authors discuss the issues of suicide from a comparative framework whether in thought or myth then the suicide inducing effects of the Graeco Roman world and finally the suicide preventing effects of the Hebrew world The final section draws on this material to present a suicide prevention therapy Historical in scope the book offers a new psychological model linking culture to the suicidal personality and suggests an antidote especially with regard to the treatment of the suicidal individual
