Acknowledgements

The present volume emerged from a series of five seminars held at Edinburgh Law School during the academic year 2016/17. The hosts funding for the seminars came partly from a grant from the British Academy, and we are extremely grateful for that support. We are also very grateful to Gavin Anderson, David Hodgson, Thomas Schirry, John Humberston, John Humberston, Charles Jeffrey, Peter Lord and Peter Walker for encouraging discussion on supporting committees for the seminar program at the seminar sessions. The seminar series well-attended, provided much debate and challenged our team members to write or refine their draft papers for publication. Several thanks are due to our committee members for making the work so enjoyable, and also to Jo Shaw, Connor McKechnie and Andrew Thomas for providing excellent catering for the final volume outside the context of the original seminar series. On the editorial side, we very much appreciate the work of Stephen Tierney and Connor Jeffrey thanks to helping progress the manuscript for publication. Finally we would like to thank Connor Jeffrey and all the administrative staff of the Law School's Research Office, especially in head Alison Hocking, for their sterling efforts in organizing the seminar series.

Europe's Constitutional Future:

Europe's Constitutional Future Erin Delaney, Julie Smith, 2005 **Constitutional Futures Revisited** R.

Hazell, 2008-10-23 The UK is going through a period of unprecedented constitutional change There is much unfinished business and further changes still to come Where are these changes taking us In this book leading political scientists and lawyers forecast the impact of these changes on the UK's key institutions and the constitution as a whole The European Constitution Giuliano Amato, 2009-01-01 I can enthusiastically recommend and endorse this book It serves the very important purpose of collecting key documents together in an elegant and accessible text There currently exists a huge proliferation of material on the EU Constitution this volume makes a very wise selection of this profusion compiling it into a manageable and informative whole Nine chapters deal with the most significant matters concerning the Constitution A short but well written introduction at the start of each chapter precedes following extracts Part of the value of this book lies in the fact that it includes translations of some important documents which are difficult or impossible to access in English for example recent decisions of national courts concerning the European Arrest Warrant All in all this work is a comprehensive but not overwhelmingly large collection of materials on the EU Constitution and it will prove extremely valuable to all those working within this area of law By presenting the background to the Constitution and the issues it deals with in this clear and informative way it will shed new light upon and help all of us to form our own judgements on the EU Constitution and its importance to our lives Sionaidh Douglas Scott King's College London UK Whatever the ultimate fate of the EU's Constitutional Treaty both the events which led to its conclusion and those which occurred afterwards during its ill fated ratification process have profoundly shaped the future of the European Union as a constitutional project This collection of materials offers an invaluable set of resources for understanding these events in their widest legal and political context The text will be useful to all those who seek to understand both why the EU has reached such a turning point and where it might go in the future Jo Shaw Edinburgh Law School UK This book offers a selection of materials that enable a better understanding of some of the most important changes that would be introduced by the Treaty establishing a Constitution for Europe in the EU legal and political system It also helps to assess the need for the reforms embedded in the Constitutional Treaty as well as the quality of the formulations agreed upon by the signatory Member States The book includes excerpts of the European Convention's work selected statutory and constitutional provisions of the Member States and also related passages from pertinent court decisions from both European courts as well as Member States constitutional courts Institutional and doctrinal analyses and relevant excerpts from the Constitutional Treaty itself are also included Many of these documents directly relate to the provisions of the Constitutional Treaty while the others although not directly related are nevertheless relevant to the debate surrounding it The European Constitution by two of the best experts on the Constitution for Europe will be of great interest to researchers and teachers in the fields of European Law and European

politics and also to policy makers in European affairs

The Struggle for the European Constitution Michael O'Neill, 2008-11-28 The European Union EU Constitution is one of the most important developments in the history of the EU The Constitution aims to make the EU more transparent relevant and accountable to the citizens of its member states The European Constitution provides the most comprehensive account of why the Constitution developed and what its implications are

The Rise and Fall of the European Constitution NW Barber, Maria Cahill, Richard Ekins, 2019-01-10 The Draft European Constitution was arguably both an attempt to constitutionalise the Union re framing that project in the language of the state and an attempt to stretch the boundaries of constitutionalism itself re imagining that concept to accommodate the sui generis European Union The partial failure of this project is the subject of this collection of essays The collection brings together leading EU constitutional scholars to consider with the benefit of hindsight the purportedly constitutional character of the proposed Constitutional Treaty the reasons for its rejection by voters in France and the Netherlands the ongoing implications of this episode for the European project and the lessons it teaches us about what constitutionalism really means

The Future of EU Constitutionalism Matej Avbelj, 2023-02-23 Is there a real and meaningful future for EU constitutionalism This collection explores this question in light of recent challenges to EU constitutional law namely the pandemic and the political schisms emerging across the European Union The contributors explore the question through the prism of the five main pillars of EU constitutionalism the constitutional values the EU formal constitutional framework its substance consisting of the EU political and economic constitution and conclude by looking at the foundational concept of sovereignty national and European in a global realm Drawing on expertise from both old and new Europe it gives voice to the most fundamental question facing the Union in its second half century

The Struggle for the European Constitution Michael O'Neill, 2008-11-28 The European Union EU Constitution was one of the most important developments in the history of the EU aiming to make the EU more transparent relevant and accountable to the citizens of its member states Current anxieties over the pace and direction of EU integration place this comprehensive study at the forefront of the EU governance debate O'Neill goes far beyond a simple account of the EU Constitution focussing also on the response to the current crisis of confidence between the Union and its citizens and how those in power have responded to the challenge Making a substantial contribution to literature on the EU key discussion points include The political crisis behind the Constitution The power politics at work in the negotiations How the Constitution affects EU policymaking The impact on the citizens of the EU This is essential reading for all those wishing to understand the background to one of the key areas within European Politics

Michael O'Neill is Jean Monnet Professor in EU Politics at Nottingham Trent University

Europe's Constitutional Future James M. Buchanan, 1990-01-01

Brexit and the Future of the European Union Federico Fabbrini, 2020 This volume aims to explore the implications of Brexit for the ongoing debate on the future of Europe first by mapping the process of UK withdrawal from the EU through the Brexit referendum negotiations and extensions and then by exploring effect of

Brexit on the EU institutions treaties and integration processes **The European Republic** Stefan Collignon, 2003 Part of a broader project on the impact of European Monetary Union EMU carried out by the Bertelsmann Foundation in co operation with the Center for Applied Policy Research at the University of Munich this project The Consequences of the Euro focuses on modeling a European political system able to live up to the changes as well as the risks involved in handling a common currency Stefan Collignon reflects on the political economy of a future European constitution He explores in particular the elusive economic and monetary policy mix that is called for within the developing framework of European integration the issues of fiscal federalism and subsidiarity and contrasting voluntary policy co ordination He also balances the demands of the Stability and Growth Pact with the embryonic consensual foundations of a European welfare function Professor Collignon argues that collective action problems require a courageous step forward in creating coherent governance structures for the Union and that it has become essential to give European citizens their democratic right to political autonomy taking the European common concern out of the sole hands of national governments Transnational Parties and Advocacy in European Integration Karl Magnus Johansson, Tapio Raunio, 2024-07-16 This book analyses the role of Europarties in the deepening of integration and the debates on the future of Europe It is guided by three fundamental research questions What strategies do Europarties utilize to advance their visions of Europe What is the relative influence of the actors in the networks of the Europarties How successful have the Europarties been in shaping the future of Europe European integration cannot be understood without accounting for the impact of the Europarties Theoretically the book utilizes the concepts of advocacy and agenda setting identifying Europarties as transnational partisan actors operating at intergovernmental and supranational levels of EU decision making Europarties have consolidated their organizational structures and more importantly have over the decades built their own networks and coalitions that enable them to wield influence in ways rarely captured by previous studies Empirically the book investigates the networks and positions of the Europarties constitutional reform processes and the role of the Europarties and their EP political groups in the broader debates on the future of Europe

The European Union after Lisbon Hermann-Josef Blanke, Stelio Mangiameli, 2011-10-12 The book contains 24 contributions from European law scholars and practitioners analysing the constitutional basis of the European Union and the normative orientation of the Common Foreign and Security Policy CFSP as well as the central economic and monetary provisions TFEU after the Reform Treaty of Lisbon Presenting the findings of a European research team which is composed of authors from eight Member States the publication underlines the aspiration of the editors to thoroughly analyse the constitutional law of the European Union currently in force Europe's Constitutional Future , 1990 **The Future of EU Constitutionalism** Matej Avbelj, 2023 Is there a real and meaningful future for EU constitutionalism This collection explores this question in light of recent challenges to EU constitutional law namely the pandemic and the political schisms emerging across the European Union The contributors explore the question through the prism of the five main pillars of EU
