**Speaking to Job in Greek** Maximilian Häberlein,2024-09-23 This study investigates the Old Greek translation of Job regarding its text Vorlage translation technique literary contexts and theological profile To situate OG Job within its ancient contexts both the strategies employed by the translators and the literary profile of the translated text have to be taken into account Thus an approach is employed encompassing a thick description of translational strategies and a reading of the translated text in its own right This framework is applied in an investigation of God's answer to Job in OG Job 38 1 42 6 The results show that the translators worked from a Vorlage similar to but not fully identical with MT and produced a coherent stylized text The transformations undertaken including double translations intertextual renderings minuses small scale rewritings and paraphrases can be situated in an environment influenced by Greek educational and philological practices but are also deeply indebted to Jewish scribal traditions While not introducing sweeping theological changes the translation nevertheless shows a tendency to emphasize divine sovereignty The study thus contributes to a deeper understanding of this important witness to the book of Job an Jewish literature in the Hellenistic period      *The Index ...* Francis Ellington Abbot,William James Potter,Benjamin Franklin Underwood,1874      **The Evolution** ,1877      *The Studio* ,1894      **The Bookseller** ,1879      **The Index** ,1878      *The academy* ,1894      **The Athenæum** ,1893      **The Athenæum** ,1887
