Fulfilled Kids, Fulfilled Parents Rick Doughty, 2011 **Be the Wisdom You Want to See in Your Kids.** Magda Tarnawska Senel, PhD, 2015-07-23 Although most parents rate having children as the most meaningful experience of their lives many find themselves pushed to their emotional and physical limits Parenthood affords us the opportunity to become more compassionate patient and understanding but we also run the risk of becoming more irritable impatient and intolerant This book shows readers how they can transform everyday challenges into sources of empowerment and inspiration by demonstrating that joyful living and soulful parenting is not something that just happens by itself it is a result of choices we make every day It also presents several proven models for effectively achieving higher levels of fulfillment and a variety of creative activities for both parents and children By guiding readers to find their own answers to such questions as What is the difference between a person who is unable to live a happy life and one who succeeds in living with a rich feeling of fulfillment How do we arrive at adulthood behaving the way we do this book helps parents discover their most authentic and inspired selves and focus on raising joyful happy and successful children who develop to their fullest potential *Structural and Functional Changes in the Joint Family System* Jawahar Lal Raina, 1989 Revision of the author's thesis Ph D Agra University Fundamental Rights and Private Law in Europe Nuno Ferreira, 2011-05-19 The book explores the relationship between fundamental rights and private law in Europe a debate usually referred to as Drittwirkung or horizontal effect of fundamental rights The work focuses on the field of tort law and looks in particular at the legal position of the tortfeasor Part I of the book is dedicated to exploring the different possible models of Drittwirkung the functions and evolution of tort law and the particular impact that fundamental rights may have in shaping the legal consequences that may derive to tortfeasors from their tortious acts Part II focuses on the relationship between children's tortious liability and their fundamental rights in a number of jurisdictions including France Italy Germany Portugal Sweden Finland and England and Wales The book goes on to consider policy implications and advances proposals which would ensure the optimisation and maximisation of the scope of
