wide range of theories from supervaluationist to contextualist and semantic realist accounts in order to address the question of whether the law can learn from engaging with philosophical discussions of vagueness The second part of the book examines different vagueness phenomena The contributions in part 2 suggest that the greater awareness to different vagueness phenomena can make lawyers aware of specific issues and solutions so far overlooked The third part deals with the pragmatic aspects of vagueness in law providing answers to the question of how to deal with vagueness in law and with the professional political moral and ethical issues such vagueness gives rise to The Adelphi ,1930 **The Veterinarian** ,1880 *A Life-Giving Vision* John Powell,Michael H.
