Thomas Griffiths

Forest Dwellers:

Rights of Forest Dwellers Through the lens of Forest Conservation Laws in India Aditya Shekhar, 2023-11-04 This book is written with a view to provide readers with a comprehensive guide to the jurisprudence of forest laws in India. The book analyses, discusses, and documents every socially relevant piece of legislation governing forests in India. It traces the history of environmental jurisprudence, giving a panoramic view to the existent legislations in India, their coming into being in light of the international developments. The authors discuss the right to environment as a human right while simultaneously emphasising on the right to nature itself. Forests have assumed a significant position in India's drive for ecological sustainability. The judges take an active part in the promotion and development of globally recognised concepts of sustainable development outside government initiatives, a part of Indian environmental conservation framework. Moreover, giving forest sustainability its due importance, the Courts have contributed significantly by discussing the contribution of forests in the developmental process and bringing the issue of sustained use of the forest resource to the fore. Judgments have been delivered, highlighting the need for sustained growth practices which compensate for the forest loss and emphasize again and again on the need to conserve and maintain forests. Therefore, the book also embarks upon the judicial pronouncements and their role in exhibiting the rights of forest dwellers via judicial trajectory of these laws.

Forests, Water and People in the Humid Tropics M. Bonell, L. A. Bruijnzeel, 2009-12-17 *Forests, Water and People in the Humid Tropics* is a comprehensive review of the hydrological and physiological functioning of tropical rain forests, the environmental impacts of their disturbance and conversion to other land uses, and optimum strategies for managing them. The book brings together leading specialists in such diverse fields as tropical anthropology and human geography, environmental economics, climatology, and meteorology, hydrology, geomorphology, plant and aquatic ecology, forestry, and conservation agronomy. The editors have supplemented the individual contributions with invaluable overviews of the main sections and provide key pointers for future research. Specialists will find authenticated detail in chapters written by experts on a whole range of people, water, land use issues; managers and practitioners will learn more about the implications of ongoing and planned forest conversion; while scientists and students will appreciate a unique review of the literature.

Uttar Pradesh General Studies for UPPSC Mains Paper V & VI with 2023 Previous Year Solved Paper & Practice Questions 2nd Edition | History, Polity, Economy, Geography, Environment, Scientific Developments of UP | Disha Experts, The 2nd Edition of the Uttar Pradesh General Studies for UPPSC Mains Paper V & VI is a unique book designed by Disha Experts to cater to the new UPPSC Mains Papers V & VI.
