The Sufi Message of Hazrat Inayat Khan: The Mysticism of Sound, Music, The Power of the Word, Cosmic Language Hazrat Inayat Khan, 2020-09-28 In this volume the second of The Sufi Message of Hazrat Inayat Khan an attempt has been made to group together most of the Sufi mystic's teaching concerning sound and music sound as the basis of creation and music as an essential means towards spiritual development Having been a musician of renown before he gave up his art in order to dedicate himself entirely to the Sufi Message with which he was entrusted Inayat Khan readily followed the practice of the ancient Sufis in expressing esoteric truths in terms of sound and music He once described this as follows I gave up my music because I had received from it all that I had to receive To serve God one must sacrifice what is dearest to one and so I sacrificed my music I had composed songs I sang and played the vina and practicing this music I arrived at a stage where I touched the Music of the Spheres Then every soul became for me a musical note and all life became music Inspired by it I spoke to the people and those who were attracted by my words listened to them instead of listening to my songs Now if I do anything it is to tune souls instead of instruments to harmonize people instead of notes If there is anything in my philosophy it is the law of harmony that one must put oneself in harmony with oneself and with others I have found in every word a certain musical value a melody in every thought harmony in every feeling and I have tried to interpret the same thing with clear and simple words to those who used to listen to my music I played the vina until my heart turned into this very instrument then I offered this instrument to the divine Musician the only musician existing Since then I have become His flute and when He chooses He plays His music The people give me credit for this music which in reality is not due to me but to the Musician who plays on His own instrument
