

evidence that these men made significant contributions, primarily to such sciences as acoustics, optics, botany, and zoology, which anticipate in many ways the discoveries of the eighteenth century. He bolsters his case with appendixes containing a number of most relevant illustrations and documents, including some fascinating letters from Plumier about the animals of the New World. He also demonstrates that in some of these men, notably Mersenne and Maignan, a knowledge of science influenced philosophy in intriguing and important ways.

But the book also has some of the disadvantages of a filing cabinet. Most of its facts are compartmentalized. Its text is strewn with untranslated quotations and lists, often accompanied with very little comment. Whitmore makes only brief and half-hearted attempts to interpret and generalize, although when he does he is usually judicious and persuasive. He also seems uncertain of the audience he is addressing, wavering between elementary explanations (e.g. of the indulgence, p. 75) and rather technical allusions.

The end result is a book which makes an important contribution to our knowledge of the history of the Catholic Reformation. However it is more the contribution of a work of reference than of a work of reflection.

ROBERT M. KINGDON

English Declarations of Indulgence, 1687 and 1688. By RICHARD E. BOYER. The Hague: Mouton & Co., 1968. 178 pp. 29 guilders.

The story of the efforts of James II of England to secure religious toleration and his subsequent failure to do so is here told in detail with competence. The author finds that the Declarations of Indulgence expressed the king's sincere desire to achieve toleration not only for his coreligionists, the Roman Catholics, but for Presbyterians and Quakers as well. His concern for Protestant dissenters did not, we are told, mask his real intentions, for he never had it in mind to convert England to Rome by force. William Penn certainly did not suspect the king of any duplicity, hailing the declarations as a great advance for all Englishmen. If Boyer faults James for anything, it is for his sometimes blindness to the meaning of events and for his haste, a part of his tactlessness. The king did not succeed in carrying his people with him and, distrusting Parliament, he seemed to acknowledge the fact that his following was insufficient to achieve his ends. James's tactlessness is most clearly shown in his treatment of the universities and in particular Oxford where he sought to foist an unacceptable head upon Magdalen College. His ineptness is demonstrated by the way in which he allowed the trial of the seven bishops, who declined to promulgate the second Declaration, to proceed contrary to his own best interests. Impatient to achieve his goals he sought to pack the court and parliament with those who would support him in his assertion of dispensing power and thus undercut in the eye of many the laws and customs of the land.

Boyer grounds his narrative upon the usual sources, but he contributes to our general knowledge by his skillful use of the pamphlets of the time, every great event being accompanied by pamphlet warfare, in itself tedious but revelatory of the reactions of the people, high and low, and of the events themselves. Two hundred thirty-five pamphlets are listed and discussed, not exhaustively, but in relation to the narrative, pamphlets by William Penn, George Savile, Lord Halifax, Edward Stillingfleet, Bishop of Worcester, Gilbert Burnet, Bishop of London, and others who used the press to make known their views on one side or the other of the great debate.

The bibliography is much too brief. Inaccuracies, principally in spelling and grammar, mar the overall value of a most useful book.
