The Different Types of Syntax

Generative syntax

how sentences are generated by the human brain

Transformational syntax

how sentences can be transformed into different forms while still retaining their meaning

Descriptive syntax

how language is actually used in practice, rather than how it "should" be used according to prescriptive rules

Comparative syntax

how different languages use syntax to convey meaning

English Syntax Rules

Subject-verb agreement

The subject and verb in a sentence must agree in number (i.e. singular or plural)

Word order

English sentences generally follow a subject-verb-object (SVO) order

Use of articles and prepositions

English uses articles (a, an, the) and prepositions (in, on, at, etc.) to convey specific meanings and relationships between words

Punctuation

The use of punctuation marks like commas, periods, and semicolons helps to clarify the meaning and structure of a sentence
