could indeed sink destroyers which had been thought impossible He was ultimately court martialed for insubordination and his contributions were grudgingly acknowledged after his death

Warriors Seven Barney Sneiderman,2006-09-25
Warriors Seven offers a fascinating collection of American commander profiles written in a lively and graphic style The unique aspect of Dr Sneiderman s approach is that each essay sketches the ironic twists of fate that befell these men at or near the peak of their careers The subjects of this study include Benedict Arnold Andrew Jackson Winfield Scott Robert E Lee George Dewey Billy Mitchell and George Patton These courageous leaders are successively featured in each of America s seven wars from 1775 to 1945 the Revolutionary War the War of 1812 the Mexican War the Civil War the Spanish American War World War I and World War II Each entry highlights or focuses upon a single battle Saratoga 1777 New Orleans 1815 Mexico City 1847 Malvern Hill 1862 Manila Bay 1898 St Mihiel 1918 and Messina 1943 Each entry highlights the life and military career of each commander up to the moment of the featured battle with a thread of continuity coursing through each chapter For example the essay on Andrew Jackson opens with a battle fought during the Revolutionary War that Jackson witnessed as a 13 year old courier for the Continental Army Twenty seven original battlefield maps facilitate the reader s understanding of the momentous events described in these pages Warriors Seven will be welcomed by anyone who appreciates gripping narrative military history leavened with a slice of historical irony Barney Sneiderman served as a professor in the Faculty Law University of Manitoba in Winnipeg Canada from 1969 until illness prompted his retirement in 2006 He is the principal author of the acclaimed Canadian Medical Law An Introduction for Physicians Nurses and other Health Care Professionals 3rd Edition 2003 Carswell The Connecticut native and former journalist is known for his lively and user friendly writing style Warriors Seven is a reflection of his longtime interest in American and European political and military history He lives in Manitoba with his wife and children PRAISE Dr Sneiderman has written a brilliant and fascinating book that shows how genius resolve dedication opportunity and hard work create great military leaders but also how demons sometimes lurk in the hearts of famous men and dull their glory Noted historian Bevin Alexander

Airmen and Air Theory Phillip S. Meilinger,2001 This part of the book reviews the state of American airpower biography and autobiography I have set certain

parameters to define the boundaries of my discussion I discuss biographies and autobiographies anthologies and oral histories of military officers who served in senior positions Thus although the stories of great aviators like Eddie Rickenbacker Charles Lindbergh and Chuck Yeager are important those men did not command large forces either in combat or in peace they had only a temporary effect on the development of strategy and doctrine Similarly excluded are civilian political leaders and industrialists like Stuart Symington and Donald Douglas even though they played key roles In their own spheres What follows are the stories some published some not of America s greatest military airmen some told by themselves others by biographers The order of presentation is roughly chronological according to the time during which these men served The fact that a surprising number of air luminaries do not appear here means that much work remains to be done
