Ridgway George C. Mitchell,1999 Soldier Matthew Bunker Ridgway,Harold H. Martin,1956 General Matthew Bunker Ridgway March 3 1895 July 26 1993 was the 19th Chief of Staff of the United States Army He served with distinction during World War II where he was the Commanding General of the 82nd Airborne Division leading it in action in Sicily Italy and Normandy before taking command of the newly formed XV III Airborne Corps in August 1944 holding this post until the end of the war commanding it in the Battle of the Bulge Operation Varsity and the Western Allied invasion of Germany Ridgway held several major commands after the war and was most famous for resurrecting the United Nations UN war effort during the Korean War His long military career was recognized by the award of the Presidential Medal of Freedom on May 12 1986 Wikipedia January 11 2018 General Matthew B. Ridgeway U S Command and General Staff College,U. S. Command U.S. Command and Staff College,2014-08-08 General Ridgway s astonishing ability to visualize military campaigns matured based on his leader development the lessons that he learned from failure and from personally mastering operational art During WWII Ridgway commanded the 82nd Airborne Division in Operations HUSKY and NEPTUNE and then the XVIII Airborne Corps in Operation MARKET the Battle of the Bulge and Operation VARSITY This monograph through an investigation into primary sources field orders after action reports and personal accounts reinforced with secondary source analysis demonstrates that Ridgway overcame inadequacy Although he completed all the military education available it was only after the intense crucible of three combat operations that he eventually applied operational art successfully Ridgway achieved tactical success but did not adequately apply operational art for HUSKY NEPTUNE and MARKET Ridgway learned from his failures and progressively improved his application of operational art during the Bulge and VARSITY Not until his fifth experience did he master operational art Within U S Army Mission Command the most important subcomponent of visualization depends on eleven elements of operational art These elements are the template this monograph uses in considering the factors of Ridgway s maturation of operational art **General Matthew B. Ridgway** Jonathan M. Soffer,1998-05-21 Detailing the life

and legacy of one of America's highest profile military commanders this biography looks at how Ridgway maintained his corporatist ideals through the critical days of World War II and the Cold War. The qualities that Ridgway honed on the battlefields of Europe and Korea were the same that he would draw upon in more politicized jobs as NATO commander and US Army Chief of Staff and in retirement as the leading military critic of American intervention in Vietnam. The global scope of Ridgway's involvement in wartime and peacetime from Europe to Latin America to the Far East provides a unique opportunity to examine the policy and ideological issues of the day. Early chapters chronicle Ridgway's younger life and early postings from West Point to China to Sandino's Nicaragua and his participation in various campaigns during World War II from Sicily to Normandy to the Battle of the Bulge and on into Germany. Later chapters cover his work as a military diplomat under President Truman including his work on arms control and the Inter American Cooperation Act. Soffer then examines Ridgway's key role in the Korean War and his ability as a theater commander and then considers his actions under President Eisenhower and beyond as well as Ridgway's active support for Ronald Reagan in the 1980s. This work will prove valuable to students of military history and the Cold War. General Matthew B. Ridgway Ronnie D. Griggs, 1974

**General Matthew B. Ridgway and Army Design Methodology During the Korean War** Command and General Staff College, 2014-04-02

Despite the vast research by Americans on General Matthew B. Ridgway's miraculous transformation of the Eighth Army during the Korean War, few studies have examined his operational approach while contrasting it with General Douglas MacArthur's. The constructed reality that emerges from the literature is that General MacArthur's operational desires led to a strained relationship with President Truman and ultimately limited his ability to employ forces in the manner he believed necessary to defeat the Communist Chinese Forces. Similarly, the impression of General Ridgway painted by historical text is that sheer will stopped and turned around the frantic retreating army which subsequently halted the CCF advance and pushed the communists beyond the 38th Parallel. Army Design Methodology provides a powerful tool for viewing these actions in a new perspective. This monograph examines the actions of General MacArthur and General Ridgway and their application of critical and creative thinking to the problem created by the entry of Communist Chinese Forces onto the Korean Peninsula in October and November of 1950. This study details the significant reframing that characterized the methods applied by General Ridgway during 1950 and 1951, providing future operational commanders a relevant historical example of Army Design Methodology in action. **The Generals** Thomas E. Ricks, 2012-10-30. A New York Times bestseller. An epic history of the decline of American military leadership from the bestselling author of *Fiasco* and *Churchill and Orwell*. While history has been kind to the American generals of World War II—Marshall, Eisenhower, Patton, and Bradley—it has been less kind to the generals of the wars that followed, such as Koster, Franks, Sanchez, and Petraeus. In *The Generals*, Thomas E. Ricks sets out to explain why that is. In chronicling the widening gulf between performance and accountability among the top brass of the U.S. military, Ricks tells the stories of great leaders and suspect ones, generals who rose to the occasion and

generals who failed themselves and their soldiers In Ricks s hands this story resounds with larger meaning about the transmission of values about strategic thinking and about the difference between an organization that learns and one that fails

The Education of Matthew Ridgway in Generalship Julian H Burns (Jr), ARMY WAR COLL CARLISLE BARRACKS PA., 1989 Our generals and admirals with battlefield experience in World War II and the Korea War have passed from the contemporary military stage Today battalion and brigade commanders and ships captains the future generals of armies and admirals of fleets are being appointed who have had no combat experience in high command Should war come they will learn their trade as generals and admirals encompassing complex tasks unavoidably both joint and combined even as they practice it All the while the country s fate and the lives of millions will hang in the balance The Nation can not tolerate the routine expenditure of lives and other precious resources on a grand scale in the education of its senior military leaders Hence war must be taught and practiced in peacetime as both a science and an art so that the minds of our senior leaders are prepared for the range of political diplomatic psycho sociological economic technological and military tasks they may one day undertake This paper examines by historical analysis the factors of genius experience training and personal habits which qualified officers for successful army or theater command in battle General Matthew B Ridgway serves as the model His battlefield education and professional growth as General are analyzed in three battles of World War II Sicily Normandy and the Ardennes and during his service in the Korean War from December 1950 through April 1952

**The Cold War U.S. Army** Ingo Trauschweizer, 2008 Focuses on the Seventh Army in West Germany the largest and best prepared field army ever deployed by the U S in peacetime to show how the U S army redefined its identity structure and mission in order to avoid obsolescence during the Cold War era of nuclear weapons and air power

**Corps Commanders of the Bulge** Harold R. Winton,2007 Study of the Battle of the Bulge

The White House and Pentagon at Odds Michael J. Forsyth,2026-01-13 The ability of leaders to develop sound national security policy and strategy has suffered immensely since the Vietnam War in large part this book proposes because of generally poor civil military relations since that time This theory called the civil military relations strategy corollary asserts that when relations between the main actors are poor the expected strategic outcomes are correspondingly of low quality Conversely when relations are characterized by close cooperation broad dialogue and mutual respect even during disagreements the probability of positive strategic outcomes is greatly improved Thus civilian and military senior leaders should work toward maintaining sound relations in order to achieve the best national outcomes This book uses historical case studies to demonstrate the theory in action and to distill the contributing factors that have strained civil military relations over time Finally it provides recommendations to reverse the deterioration of civil military relations in the United States

*A Dictionary of Military Quotations* Trevor Royle,2021-05-30 This book first published in 1990 is a provocative collection of military quotations that captures the human essence of warfare From the skirmishes beneath the walls of Troy to the dropping of the atomic bomb nearly 3 500 quotations distil the experiences of generations of soldiers depicting the preparation for and the waging of war Read the words of field marshals and generals kings and dictators and follow them into battle Alexander the Great at Issus Wellington at Waterloo Sitting Bull at Little Big Horn and Montgomery at El Alamein Here too are the recorded details of life among the ranks as diverse as ammunition and uniform sick parade and comradeship discipline and Dear John letters A final section Last Post deals with the tragic aftermath of conflict

**Honorable Warrior** Lewis Sorley,1998 A man of extraordinary inner strength and patriotic devotion General Harold K Johnson was a soldier s officer loved by his men and admired by his peers for his leadership courage and moral convictions Lewis Sorley s biography provides a fitting testament to this remarkable man and his dramatic rise from obscurity to become LBJ s Army Chief of Staff during the Vietnam War A native of North Dakota Johnson survived more than three grueling years as a POW under the Japanese during World War II before serving brilliantly as a field commander in the Korean War for which he was awarded the Distinguished Service Cross for extraordinary heroism The latter experiences led to a series of high level positions that culminated in his appointment as Army chief in 1964 and a cover story in Time magazine What followed should have been the most rewarding period of Johnson s military career Instead it proved to be a nightmare as he quickly became mired in the

politics and ordeal of a very misguided war Johnson fundamentally disagreed with the three men LBJ Secretary of Defense Robert McNamara and General William Westmoreland running our war in Vietnam He was sharply critical of LBJ's piecemeal policy of gradual escalation and his failure to mobilize the national will or call up the reserves He was equally despondent over Westmoreland's now infamous search and destroy tactics and reliance on body counts to measure success in Vietnam By contrast he advocated greater emphasis on cutting the North's supply lines helping the South Vietnamese provide for their own internal defenses and sustaining a truly legitimate government in the South Unheeded he nevertheless continued to work behind the scenes to correct the nation's flawed approach to the war Sorley's study adds immeasurably to our understanding of the Vietnam War It also provides an inspiring account of principled leadership at a time when the American military is seeking to recover the very kinds of moral values exemplified by Harold K Johnson As such it presents a profound morality tale for our own era

*General Matthew B. Ridgway: Attributes of Battle Command and Decision-Making* Brian Reeves, Naval War College (U.S.). Joint Military Operations Department, 1998

What affect will information superiority have on the decision making process of the future Will information dominance require the attributes of future battle commanders be different than those of the past This paper focuses on the intellectual and personality traits of General Matthew B Ridgway as they apply to operational command and decision making These traits are considered essential for analysis and serve as a framework in which to examine their applicability to future command The essential qualities of an operational commander are divided into two categories intellect and personality Each category is further divided into elemental traits The application of these traits to Ridgway as they pertain to his command in the Korean war serve to demonstrate their permanence
