**Discourse in Dialogue** Pat F. Rossi, 2014-07-24 Discourse in Dialogue Reflections in Fundamental Philosophical Theology is a project which considers fundamental theological and philosophical perspectives in Catholic Christian theology This project adumbrates a number of specifically intellectual themes namely philosophical and theological in character which pertain to the Catholic Christian tradition These themes include a study of the following the interrelationship of philosophy and theology theological method and pluralism the interpretation of scripture and its underlying hermeneutical principles Christian anthropology in relation to philosophy of the human person the Christological mystery and soteriology as well as the nature of Christian Philosophy all of which are representative themes proper to fundamental philosophical theology This work serves as an introductory text to the above cited questions while also providing more specific points of study for those interested in a more comprehensive reflection on contemporary philosophical and theological perspectives **The Death of Jesus in Matthew** Catherine Sider Hamilton, 2017-06-16 In this book Catherine Sider Hamilton introduces a new lens through which to view the death of Jesus in Matthew Using the concept of innocent blood she situates the death of Jesus within a paradigm of purity and pollution one that was central in the Hebrew Scriptures and early Judaism from the Second Temple to the rabbis Hamilton traces the theme of innocent blood in Matthew s narrative in relation to two Jewish traditions of interpretation one in Second Temple literature reflecting on the story of Cain and Abel the other chiefly in rabbinic literature on the blood of Zechariah Innocent blood yields a vision that resists the dichotomies intra muros vs extra muros rejection vs redemption that have characterized the debate a vision in which both judgment and redemption an end of exile may be true Innocent blood offers a new approach not only to the meaning of Jesus death in Matthew but also to the vexed question of the Gospel s attitude toward contemporary Judaism Found in Translation Laura Rademaker, 2018-04-30 Found in Translation is a rich account of language and shifting cross cultural relations on a Christian mission in northern Australia during the mid twentieth century It explores how translation shaped interactions between missionaries and the Anindilyakwa speaking people of the Groote Eylandt archipelago and how each group used language to influence evade or engage with the other in a series of selective mistranslations In particular this work traces the Angurugu mission from its establishment by the Church Missionary Society in 1943 through Australia s era of assimilation policy in the 1950s and 1960s to the introduction of a self determination policy and bilingual education in 1973 While translation has typically been an

instrument of colonization this book shows that the ambiguities it creates have given Indigenous people opportunities to reinterpret colonization's position in their lives. Laura Rademaker combines oral history interviews with careful archival research and innovative interdisciplinary findings to present a fresh cross-cultural perspective on Angurugu mission life. Exploring spoken language and sound, the translation of Christian scripture and songs, the imposition of English literacy and Aboriginal singing traditions, she reveals the complexities of the encounters between the missionaries and Aboriginal people in a subtle and sophisticated analysis. Rademaker uses language as a lens delving into issues of identity and the competition to name, own, and control. In its efforts to shape the Anindilyakwa people's beliefs, the Church Missionary Society utilized language both by teaching English and by translating Biblical texts into the native tongue. Yet missionaries relied heavily on Anindilyakwa interpreters whose varied translation styles and choices resulted in an unforeseen Indigenous impact on how the mission's messages were received. From Groote Eylandt and the peculiarities of the Australian settler colonial context, *Found in Translation* broadens its scope to cast light on themes common throughout Pacific mission history, such as assimilation policies, cultural exchanges, and the phenomenon of colonization itself. This book will appeal to Indigenous studies scholars across the Pacific as well as scholars of Australian history, religion, linguistics, anthropology, and missiology.
