## **Gorilla Gorilla:**

Gorilla Pathology and Health John E Cooper, Gordon Hull, 2016-12-21 Gorilla Pathology and Health With a Catalogue of Preserved Materials consists of two cross referenced parts The first the book itself is a review of pathological changes and tissue responses in gorillas Gorilla gorilla and G beringei with an emphasis on free living animals but also with reference to those in captivity The comparative aspects are discussed stressing the relevance of research to both gorillas and humans What makes the publication truly unique however is the second part a comprehensive descriptive catalogue of the location and nature of gorilla material in museums and scientific institutions throughout the world This is of great consequence because free living gorillas are strictly conserved with restricted access so the location of a wealth of preserved tissues and other material that has been collected over the decades is a great benefit for research and study This book can and should be used to gain cardinal knowledge regarding the biology and pathology of this genus The combination of book and catalogue in this extensive compilation makes it an invaluable tool for all those concerned with the health welfare and conservation of gorillas one of our nearest living relatives Brings together studies data and clinical practice from difficult to access or obscure journals and NGO reports in different languages for all interested parties and practitioners Provides perspectives on existing research in gorilla pathology both for those studying conservation practices and those seeking an understanding of comparable diseases in humans Includes illustrative figures on gross and microscopic pathological changes museum specimens photos of field necropsy and techniques and examples of laboratory tests Features an extensive list of references and further reading in different languages Incorporates a comprehensive descriptive catalogue of gorilla material from around the world

Hominin Postcranial Remains from Sterkfontein, South Africa, 1936-1995 Bernhard Zipfel, Brian G. Richmond, Carol V. Ward, 2020-05-07 This volume is the first source to present an in depth analysis of postcranial fossils allowing readers to cross compare standardized data for themselves

*I Totally Meant to Do That* Jane Borden, 2011-03-01 Jane Borden is a hybrid too horrifying to exist a hipster debutante She was reared in a proper Southern home in Greensboro North Carolina sent to boarding school in Virginia and then went on to join a sorority in Chapel Hill She next moved to New York and discovered that none of this grooming meant a lick to anyone In fact she hid her upbringing for many years it was easier than explaining what a debutante does the short answer not much Anyone who has moved away from home or lived in or dreamed of living in New York will appreciate the hilarity of Jane s musings on the intersections of and altercations between Southern hospitality and Gotham cool
