

Analysis of Disney+ Value Proposition

 Exclusively available on IvyPanda

Research indicates that streaming services are the future of content distribution. This format manages to grasp the very essence of the 21st-century spirit and combines high-tech solutions with the familiar methods of pastime (Fagerjord & Kueng, 2019). Today, there are many services that offer such content, and it may be difficult to decide which one is best. As the analysis indicates, Disney+ is the optimal solution in this regard with the potential above Netflix. This platform is a combination of classics and modernity that creates an unprecedented quality of entertainment (Agnihotri & Bhattacharya, 2022). It draws inspiration from established franchises, such as *Marvel*, *Pixar*, and *Star Wars*, adding a new dimension to the familiar universes (Disney, 2022). Overall, Disney+ offers well-known pictures of its own production, as well as brand-new original content that meets the interests of most viewers, presenting it in the most convenient form that exists today.
