From Land To Mouth Understanding The Food System:

From Land to Mouth Brewster Kneen, 1993 Tells the story of how the global food system functions Enables readers to begin to create localized sustainable food systems built on justice and community *Civil Society and Social Movements in Food System Governance* Peter Andr e, Jill K. Clark, Charles Z. Levkoe, Kristen Lowitt, 2019-01-30 This book offers insights into the governance of contemporary food systems and their ongoing transformation by social movements As global food systems face multiple threats and challenges there is an opportunity for social movements and civil society to play a more active role in building social justice and ecological sustainability Drawing on case studies from Canada the United States Europe and New Zealand this edited collection showcases promising ways forward for civil society actors to engage in governance The authors address topics including the variety of forms that governance engagement takes from multi stakeholderism to co governance to polycentrism self governance the values and power dynamics that underpin these different types of governance processes effective approaches for achieving desired values and goals and the broader relationships and networks that may be activated to support change By examining and comparing a variety of governance innovations at a range of scales the book offers insights for those considering contemporary food systems and their ongoing transformation It is suitable for food studies students and researchers within geography environmental studies anthropology policy studies planning health sciences and sociology and will also be of interest to policy makers and civil society organisations with a focus on food systems The Open Access version of this book available at <http://www.tandfebooks.com/doi/view/10.4324/9780429503597> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Remaking the North American Food System* C. Clare Hinrichs, Thomas A. Lyson, 2007 Examines the resurgence of interest in rebuilding the links between agricultural production and food consumption With examples from Puerto Rico to Oregon to Quebec this work offers a North American perspective attuned to trends toward globalization at the level of markets and governance and shows how globalization affects specific localities **The Oxford Encyclopedia of Food and Drink in America** Andrew Smith, 2013-01-31 Home cooks and gourmets chefs and restaurateurs epicures and simple food lovers of all stripes will delight in this smorgasbord of the history and culture of food and drink Professor of Culinary History Andrew Smith and nearly 200 authors bring together in 770 entries the scholarship on wide ranging topics from airline and funeral food to fad diets and fast food drinks like lemonade Kool Aid and Tang foodstuffs like Jell O Twinkies and Spam and Dagwood hoagie and Sloppy Joe sandwiches **Routledge Handbook of Sustainable and Regenerative Food Systems** Jessica Duncan, Michael Carolan, Johannes S.C. Wiskerke, 2020-08-13 This handbook includes contributions from established and emerging scholars from around the world and draws on multiple approaches and subjects to explore the socio economic cultural ecological institutional legal and policy aspects of regenerative food practices The future of food is uncertain We are facing an overwhelming number of interconnected and complex challenges related to the ways we grow

distribute access eat and dispose of food Yet there are stories of hope and opportunities for radical change towards food systems that enhance the ability of living things to co evolve Given this activities and imaginaries looking to improve rather than just sustain communities and ecosystems are needed as are fresh perspectives and new terminology The Routledge Handbook of Sustainable and Regenerative Food Systems addresses this need The chapters cover diverse practices geographies scales and entry points They focus not only on the core requirements to deliver sustainable agriculture and food supply but go beyond this to think about how these can also actively participate with social ecological systems The book is presented in an accessible way with reflection questions meant to spark discussion and debate on how to transition to safe just and healthy food systems Taken together the chapters in this handbook highlight the consequences of current food practices and showcase the multiple ways that people are doing food differently The Routledge Handbook of Sustainable and Regenerative Food Systems is essential reading for students and scholars interested in food systems governance and practices agroecology rural sociology and socio environmental studies

Achieving sustainable urban agriculture Prof Johannes S. C. Wiskerke, 2020-02-18 Strong focus on infrastructural requirements for successful urban agriculture such as public policy and planning frameworks business models and social networks Covers developments in key technologies such as rooftop and vertical farming as well as waste management Includes case studies of particular commodities including horticultural produce livestock and forestry

Nourishing Communities Irena Knezevic, Alison Blay-Palmer, Charles Z. Levkoe, Phil Mount, Erin Nelson, 2017-06-10 This edited volume builds on existing alternative food initiatives and food movements research to explore how a systems approach can bring about health and well being through enhanced collaboration Chapters describe the myriad ways community driven actors work to foster food systems that are socially just embed food in local economies regenerate the environment and actively engage citizens Drawing on case studies interviews and Participatory Action Research projects the editors share the stories behind community driven efforts to develop sustainable food systems and present a critical assessment of both the tensions and the achievements of these initiatives The volume is unique in its focus on approaches and methodologies that both support and recognize the value of community based practices Throughout the book the editors identify success stories challenges and opportunities that link practitioner experience to critical debates in food studies practice and policy By making current practices visible to scholars the volume speaks to people engaged in the co creation of knowledge and documents a crucial point in the evolution of a rapidly expanding and dynamic sustainable food systems movement Entrenched food insecurity climate change induced crop failures rural urban migration escalating rates of malnutrition related diseases and aging farm populations are increasingly common obstacles for communities around the world Merging private public and civil society spheres the book gives voice to actors from across the sustainable food system movement including small businesses not for profits eaters farmers and government Insights into the potential for market restructuring knowledge sharing planning and bridging civic political divides come
