Word 2007: The Missing Manual Chris Grover,2006-12-21 Microsoft Word has grown considerably in power sophistication and capability over the past decade but one thing that hasn t changed since the early 90s is its user interface The simple toolbar in version 2 0 has been packed with so many features since then that few users know where to find them all Consequently more and more people are looking for insider tips that will allow them to use these

advanced and often hidden features Microsoft has addressed this problem in Word 2007 by radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use Unfortunately Microsoft's documentation is as scant as ever so even though you will be able to find advanced features you might not know what to do with them Word 2007 The Missing Manual written specifically for this version of the software explains basics like how to create documents enter and edit text format print and fax You will also learn how to create sophisticated page layouts insert forms and tables use graphics and create book length documents with outlines and Master Documents Coverage also includes how to share documents with other people and programs create web pages automate documents with fields and automate tasks with macros and the Visual Basic scripting language This book shows you how to do it all *Office 2013: The Missing Manual* Nancy Conner, Matthew MacDonald, 2013-05-22 Microsoft Office is the most widely used productivity software in the world but most people just know the basics This helpful guide gets you started with the programs in Office 2013 and provides lots of power user tips and tricks when you're ready for more You'll learn about Office's new templates and themes touchscreen features and other advances including Excel's Quick Analysis tool The important stuff you need to know Create professional looking documents Use Word to craft reports newsletters and brochures for the Web and desktop Stay organized Set up Outlook to track your email contacts appointments and tasks Work faster with Excel Determine the best way to present your data with the new Quick Analysis tool Make inspiring presentations Build PowerPoint slideshows with video and audio clips charts and graphs and animations Share your Access database Design a custom database and let other people view it in their web browsers Get to know the whole suite Use other handy Office tools Publisher OneNote and a full range of Office Web Apps Create and share documents in the cloud Upload and work with your Office files in Microsoft's SkyDrive [Excel 2003: The Missing Manual](#) Matthew MacDonald, 2004-12-22 Whether you are an Excel neophyte a sophisticate who knows the program inside out or an intermediate level plodder eager to hone your skills Excel The Missing Manual is sure to become your go to resource for all things Excel Covering all the features of Excel 2002 and 2003 the most recent versions for Windows Excel The Missing Manual is an easy to read thorough and downright enjoyable guide to one of the world's most popular and annoyingly complicated computer programs Never a candidate for the most user friendly of Microsoft programs Excel demands study practice and dedication to gain even a working knowledge of the basics Excel 2003 is probably even tougher to use than any previous version of Excel However despite its fairly steep learning curve this marvelously rich program enables users of every stripe to turn data into information using tools to analyze communicate and share knowledge Excel can help you to collaborate effectively and protect and control access to your work Power users can take advantage of industry standard Extensible Markup Language XML data to connect to business processes To unleash the power of the program and mine the full potential of their database talents users need an authoritative and friendly resource None is more authoritative or friendlier than Excel The Missing Manual Not only does the book provide exhaustive coverage of the basics it

provides numerous tips and tricks as well as advanced data analysis programming and Web interface knowledge that pros can adopt for their latest project Neophytes will find everything they need to create professional spreadsheets and become confident users Excel The Missing Manual covers worksheet basics formulas and functions organizing worksheets charts and graphics advanced data analysis sharing data with the rest of the world and programming If you buy just one book about using Excel this has GOT to be it This book has all you need to help you excel at Excel PowerPoint 2007: The Missing Manual E. A. Vander Veer,2006-12-22 Like every other application in Microsoft Office suite PowerPoint is loaded with features So many in fact that even veterans don t know where to find them all Microsoft solved this problem in PowerPoint 2007 by redesigning the user interface with a tabbed toolbar that makes features easy to locate and use PowerPoint 2007 also boasts improved graphics additional templates the ability to save custom layouts and improved collaboration through SharePoint One thing Microsoft hasn t improved is its poor documentation To learn the ins and outs of all the features in PowerPoint 2007 Microsoft merely offers online help If you re familiar with previous versions of the program you may be lost the first time you fire up the new PowerPoint or you would be if it weren t for PowerPoint 2007 The Missing Manual This book written specifically for this version of the software not only offers the basics of how to create save set up run and print a basic bullets and background slideshow but takes you into the world of multimedia animation and interactivity You ll learn how to add pictures sound video animated effects and controls buttons and links to their slides along with ways to pull text spreadsheets and animations created in other programs You can also create your own reusable design templates and learn to automate repetitive tasks with macros Learn how to take advantage of advanced functions such as adding custom background images that existed in previous PowerPoint versions but were so cleverly hidden that few people ever found them **Word 2007 for Starters: The Missing Manual** Chris Grover,2007-01-25 Fast paced and easy to read this concise book teaches you the basics of Word 2007 so you can start using the program right away Not only will you learn how to work with Word s most useful features to create documents format and edit text share the results and more you ll also discover how to go beyond basic documents to handle graphics create page layouts and use forms and tables The new Word is radically different from previous versions but with this convenient book you can breeze through the new user interface and its timesaving features in no time with Clear explanations Step by step instructions Lots of illustrations Larger type Plenty of friendly advice Word is used primarily for word processing but there s more to this powerful program than meets the eye It also offers a staggering array of advanced features that were once found only in page layout programs and graphics software Many of these features are hidden among Word s cluttered menus and even the pros can t find them all For Word 2007 Microsoft redesigned the user interface completely adding a tabbed toolbar that makes every feature easy to locate Unfortunately Microsoft s documentation is as poor as ever so even if you find the features you need you still may not know what to do with them Word 2007 for Starters The Missing Manual helps you master Word s redesigned user interface and

gives you exactly what you need to create unique attractive and effective documents
