Beyond the Great Divide Governor George Pataki, Trey Radel, 2020-04-14 Following the attacks of September 11th New York Governor George Pataki witnessed a truly United States of America rise like the mythological phoenix People came together regardless of their generational ethnic situational or cultural background and he stated On that terrible day a nation became a neighborhood All Americans became New Yorkers These words echo today with a hollow ring and a bitter sting The economic and emotional fallout post 9 11 was devastating The political toll was even worse bringing us to where we are today a society as divided as it s been in more than a hundred years separated by political tribes that demand ideological purity coupled with blind loyalty In looking at America and its divide Pataki asks a bold question Did the terrorists win This is a question no sitting politician or pundit from either side of the political spectrum will dare address Along with President George W Bush and Mayor Rudy Giuliani Pataki was one of only three people directly involved in commanding and making life or death decisions during 9 11 Few have the experience or depth to even begin to dive into this subject as a result Pataki s answers might surprise you In sharing his perspective of where we were and where we are today he hopes to shed light on what he calls the great divide It s a divide not just between left and right or Republicans and Democrats but between the American people and their government This division has fostered anger and resentment toward Washington and toward each

other in a cultural separation that is likened to that of the Civil War Now almost twenty years since the deadliest attack on American soil Americans have reached another critical moment will we unite again or this time get lost in the divide Drawing on Pataki s memories notes crises and critical events The Great Divide gives an unprecedented shocking heart pounding inside view into what happened before during and after 9 11 The Governor reflects on where our country is today and how we can rebuild a common future and perhaps return to a time when a nation became a neighborhood Found in Alberta Robert Boschman, Mario Trono, 2014-10-22 Found in Alberta Environmental Themes for the Anthropocene is a collection of essays about the natural environment in a province rich in natural resources and aggressive in development goals This is a casebook on Alberta from which emerges a far wider set of implications for North America and for the biosphere in general The writers come from an array of disciplinary backgrounds within the environmental humanities The essays examine the oil tar sands climate change provincial government policy food production industry practices legal frameworks wilderness spaces hunting Indigenous perspectives and nuclear power Contributions from an ecocritical perspective provide insight into environmentally themed poetry photography and biography Since the actions of Alberta s industries and government are currently at the heart of a global environmental debate this collection is valuable to those wishing to understand the natural and commercial forces in play The editors present an introductory argument that frames these interests inside a call for a rethinking of our assumptions about the natural world and our place within it The Evolutionist at Large Grant Allen, 1881
