Star Patterns

Findout Constellations

What:
There is a lot of stars that make up constellations. Learning to find constellations is an important skill for astronomers and stargazers. The biggest star in the constellation is called the **alpha** star.

How:
Use a star chart or a star map to find the constellation of interest. Constellations are usually named after an animal or a person. The star chart or map will show the constellation's location in the sky.

Why:
The stars in a constellation are not actually connected. They are just in the same part of the sky. The stars in a constellation are not connected to each other.

Where:
The stars in a constellation are scattered across the sky. They are not in a straight line. The stars in a constellation are scattered across the sky.

Star Patterns
