Integrated Analysis of Interglacial Climate Dynamics (INTERDYNAMIC) Michael Schulz,Andre Paul,2014-11-20 The work addresses the following questions in the context of interglacial climate dynamics i What are the amplitudes of natural climate variations on timescales of several years to millennia ii Do abrupt changes in the large scale circulation of the Atlantic Ocean occur in interglacials iii Which biogeochemical feedback mechanisms control the natural limits of atmospheric concentrations of greenhouse gases and aerosols iv Which linkages exist between climate and pre industrial cultures The work is based on an integrated approach in paleoclimate research in which all available paleoclimate archives terrestrial and marine as well as ice cores are combined in order to yield a comprehensive and quantitative analysis of global environmental variations Moreover through a close linkage between paleoclimate reconstructions and results from Earth system models detailed insights into the dynamics of climate variations are gained The Multimedia and CD-ROM Directory ,1998

Volcano-ice Interaction on Earth and Mars J. L. Smellie,Mary G. Chapman,2002 This volume focuses on magmas and cryospheres on Earth and Mars and is the first publication of its kind to combine a thematic set of contributions addressing the diverse range of volcano ice interactions known or thought to occur on both planets Understanding those interactions is a comparatively young scientific endeavour yet it is vitally important for a fuller comprehension of how planets work as integrated systems It is also topical since future volcanic eruptions on Earth may contribute to melting ice sheets and thus to global sea level rise **New Scientist** ,1998 NewMedia ,1999 **The Audiovisual Librarian** ,1997 **Gale Directory of Databases** ,2007 This is a guide to computer readable databases available online in CD ROM format or in other magnetic formats Details include database descriptions costs and whom to contact for purchase The material is indexed alphabetically and by subject vendor and producer **Research Dialogue in Learning and Instruction** ,1998
