Duncan Townson, Dylan Rees

France Since The Revolution:

France Since the Revolution Alfred Cobban, 1970 *France Since the Revolution* Claire Gorrara, Rachael Langford, 2003-01 *France since the Revolution Texts and Contexts* introduces students to modern France by exploring the emergence and development of France's five Republics and the values and ideals of French republicanism. Starting with the events of the French Revolution of 1789, each of the chapters in the book focuses on a flashpoint in French history: the Revolution of 1848, the Paris Commune of 1870, the Dreyfus affair of the 1890s, the First and Second World Wars, the Brazzaville conference of 1944, May 1968, and the campaign for political parity for women in the 1990s. Written by specialists from a range of disciplines including history, cultural studies, politics, and French area studies, these chapters address a series of contexts, providing an overview of events and a critical interpretation of how such upheavals have affected the history of France's Republics. Questions of gender, race, and class are pivotal to such analyses. Complementing this emphasis on contexts are a number of texts available in French and English that give a flavour of how individual French men and women experienced their times. As an introductory book for undergraduates, *France since the Revolution* does not assume extensive previous knowledge and contains a complete glossary of the key names used in chapters, as well as a time line for reference and suggestions for further reading. An important resource for students and teachers alike, this accessible book gives its readers a firm base in nineteenth and twentieth century French history and culture from which to develop more specialized interests.

France in Revolution, 1776-1830 Sally Waller, 2002. The AS/A2 History series that everyone's talking about.

France After Revolution Denise Z. Davidson, 2007-04-30. Davidson provides a reevaluation of prevailing views on the effects of the French Revolution and particularly on the role of women. Arguing against the idea that women were forced from the public realm of political discussion, Davidson demonstrates how women remained highly visible and active.

Access to History: France in Revolution 4th Edition Duncan Townson, Dylan Rees, 2008-05-30. The Access to History series is the most popular and trusted series for AS and A level history students. The new editions combine all the strengths of this well-loved series with a new design and features that allow all students access to the content and study skills needed to achieve exam success. This is a new edition of *France in Revolution* and has been fully updated and extended to cover the 2008 AS and A2 specifications for all examination boards. This title charts the long and short term causes of the French Revolution, the political, social, and economic impact of the Revolution itself, and the establishment of the Terror. There is also an additional chapter on Napoleonic rule in France from 1799-1815. Throughout the book, key dates, terms, and issues are highlighted, and historical interpretations of key debates are outlined. Summary diagrams are included to consolidate knowledge and understanding of the period, and exam-style questions and tips written by examiners for each examination board provide the opportunity to develop exam skills.

The Nation ,1875 The Road to 1789 Nora Temple,1992 The subject of the origins of the French Revolution is one of the most important and controversial themes in European history This fresh critical appraisal begins with a masterly exposition and assessment of recent scholarly debate on the subject followed by a lucid analysis supported by documentary evidence of the multiple stresses which undermined the Old Regime The author concludes that a revolution was unavoidable because the Old Regime was incapable of reforming fundamental defects in its political structures but it was the contingent circumstances of 1788 9 that made the Revolution unexpectedly radical
