Star Patterns

Findout Constellations

What:
There is a lot of stars that make up constellations. Learning to find constellations is an important skill for astronomers and stargazers. The biggest star in the constellation is called the **alpha** star.

How to:
Use a star chart or a star map to find the constellation of interest. Constellations are usually named after a mythological figure or an animal. The stars in a constellation are usually connected by lines to form a picture.

What:
The Orion constellation is one of the most prominent constellations in the night sky. It is named after the Greek hunter Orion. The stars in the constellation are connected by lines to form a picture of a hunter.
