Guide To Russian References Volume 2:

A Researcher's Guide to Sources on Soviet Social History in the 1930s Sheila Fitzpatrick, Lynne Viola, 2016-07-22
The Stalin era has been less accessible to researchers than either the preceding decade or the postwar era. The basic problem is that during the Stalin years censorship restricted the collection and dissemination of information and introduced bias and distortion into the statistics that were published while in the post-Stalin years access to archives and libraries remained tightly controlled. Thus it is not surprising that one of the main manifestations of glasnost has been the effort to open up records of the 1930s. In this volume Western and Soviet specialists detail the untapped potential of sources on this period of Soviet social history and also the hidden traps that abound. The full range of sources is covered from memoirs to official documents from city directories to computerized data bases. Guide to Russian Reference Books Karol Maichel, 1962

Archives in Russia: A Directory and Bibliographic Guide to Holdings in Moscow and St. Petersburg Patricia Kennedy Grimsted, Patricia Kennedy Grimstead, 2016-04-01 This is a comprehensive directory and bibliographic guide to Russian archives and manuscript repositories in the capital cities of Moscow and St. Petersburg. It is an essential resource for any researcher interested in Russian sources for topics in diplomatic, military, and church history, art, dance, film, literature, science, ethnography, and geography. The first part lists general bibliographies of relevant reference literature, directories, bibliographic works, and specialized subject-related sources. In the following sections of the directory, archival listings are grouped in institutional categories. Coverage includes federal ministerial agency, presidential, local university, Academy of Sciences, organizational, library, and museum holdings. Individual entries include the name of the repository in Russian and English, basic information on location, staffing, institutional history, holdings, access, and finding aids. More comprehensive and up to date than the 1997 Russian Version, this edition includes Web site information, dozens of additional repositories, several hundred more bibliographical entries, coverage of reorganization issues, four indexes, and a glossary.
