First Aid for Cats and Dogs Gordon Roberts BVSc MRCVS,2015-01-30 Not everybody believes an emergency will occur with their pets

Even the ones that do often don't realise they can make a substantial difference in a serious situation. Rest assured anyone wanting to be prepared for any problems will be ready and more confident with this pet first aid guide. This eBook comes in a simple and easy to read style that informs dog and cat lovers how to prepare for emergency and first aid situations. It also provides useful tips on how to prevent these situations from arising in the first place. Many other first aid guides fail to point out the safety risks involved in first aid but this guide will unlock all the potential hazards that cause harm to you and your pet during such a frantic time as well as tell you how to avoid them. But how do you even know when something is wrong or when it's time to call the situation an emergency, act on it and contact the vet? Luckily there is a chapter to walk you through the normal signs including healthy temperature, pulse and breathing rate along with the common signs of poor health that you cannot ignore. First aid is all about knowing what to do and how to do it so this guide's chapter on first aid procedures will reveal the most common used methods to help stabilise your pet: artificial respiration, CPR, the Heimlich manoeuvre and detailed wound care tips. The final chapter outlines various medical conditions or medical emergencies, how to spot them and what first aid to perform to increase chances of stabilising the pet, stopping problems from getting worse or protecting and attending to problems temporarily until a vet is reached. Overall you won't find a more handy pet first aid guide that can be accessed and read so easily.
