Field Stone Poems

Samuel Taylor Coleridge

Field Stone Poems:

Field Stone Catherine Kasper, 2004 **Field Stones** Robert Kinsley, 1997 A Guide to The Maximus Poems of Charles Olson George F. Butterick, 2023-11-15 A Guide to the Maximus Poems of Charles Olson offers an essential companion to Olson's monumental and intricate Maximus Poems. This scholarly guide navigates the complexities of Olson's allusive and expansive verse which spans themes from local Gloucester history to universal mythologies. With nearly 4,000 annotations, the guide meticulously decodes references to historical figures, literary works, geographical landmarks, and philosophical concepts. It moves line by line, offering insight into Olson's sources and intellectual framework, including his borrowings from Algonquin legends, Arabic angelology, and Whitehead's cosmology. Rich with unpublished material from Olson's papers, as well as letters, interviews, and classroom notes, the guide aims to equip readers with the tools to actively engage with Olson's text, uncovering its layered meanings through his principle of *istoria* to find out for oneself. Structured chronologically rather than alphabetically, the guide mirrors the progression of Olson's three-volume epic, weaving historical scholarship with interpretive clarity. Each annotation situates Olson's references in context, revealing the intricate interplay between history, myth, and the poet's life in Gloucester. The guide further illuminates Olson's creative process, tracing the evolution of his ideas through drafts, personal correspondences, and published works. Designed as both a reference and an entry point into Olson's ambitious poetic project, it not only deepens appreciation for *The Maximus Poems* but also serves as a model for literary scholarship, inviting readers to engage with Olson's world on their own intellectual journey. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1980. **The poems of Samuel Taylor Coleridge, including poems and versions of Samuel Taylor Coleridge, 1927** **Poems and Plays by Charles and Mary Lamb** e.V. Lucas, 1912 *The Poems of Samuel Taylor Coleridge, Including Poems and Versions of Poems Herein Published for the First Time* Samuel Taylor Coleridge, 1921 Poems and plays Charles Lamb, 1912 **Eugene Field's Creative Years** Charles Henry Dennis, 1924 *Routledge Library Editions: Wordsworth and Coleridge* Various, 2021-07-14 Beginning with the publication of their joint collection of poems *Lyrical Ballads* in 1798, William Wordsworth and Samuel Taylor Coleridge were instrumental in helping to establish the Romantic Movement as a major force in nineteenth-century British literature. Two of the movement's greatest figures, they were responsible for composing some of the most well-known poems in the British literary canon and influenced generations of acolytes. They were also the foremost literary critics of the period, contributing influential writings on literary theory and philosophy, exemplified by Coleridge's *Biographia Literaria*. *Routledge Library Editions: Wordsworth and Coleridge* assembles a wide range of scholarship and criticism that covers all aspects of their diverse output and charts the vicissitudes of their lives, examining

their poetry criticism philosophy and sources of inspiration It will also help introduce them to newer readers and explain notoriously difficult to understand works like Wordsworth s *The Prelude* This set reissues 14 books originally published between 1960 and 1991 and will be of interest to students of literature and literary history

Wordsworth and Beginnings of Modern Poetry Robert Rehder,2016-06-17 First published in 1981 this study sees Wordsworth s work as part of the continuous European struggle to come to terms with consciousness The author pays particular attention to Wordsworth s style and investigates the unstated and unconscious assumptions of that style He discusses the conflicting feelings that shaped Wordsworth s changing conception of *The Recluse* offers a new interpretation of his classification of his poems and examines the meaning of one of his favourite images the panoramic view of a valley filled with mist While the emphasis is on Wordsworth s greatness as a poet the book stresses the importance of significance of his relation to European literature and poetry

The Field of Stones Richard Edwards,1962 *Readers' Guide to Periodical Literature* Anna Lorraine Guthrie,1915 An author subject index to selected general interest periodicals of reference value in libraries

Since Meiji J. Thomas Rimer,2011-10-31 Research outside Japan on the history and significance of the Japanese visual arts since the beginning of the Meiji period 1868 has been with the exception of writings on modern and contemporary woodblock prints a relatively unexplored area of inquiry In recent years however the subject has begun to attract wide interest As is evident from this volume this period of roughly a century and a half produced an outpouring of art created in a bewildering number of genres and spanning a wide range of aims and accomplishments Since Meiji is the first sustained effort in English to discuss in any depth a time when Japan eager to join in the larger cultural developments in Europe and the U S went through a visual revolution Indeed this study of the visual arts of the nineteenth and twentieth centuries suggests a fresh history of modern Japanese culture one that until now has not been widely visible or thoroughly analyzed outside that country In this extensive collection which includes some 190 black and white and color reproductions scholars from Japan Europe Australia and America explore an impressive array of subjects painting sculpture prints fashion design crafts and gardens The works discussed range from early Meiji attempts to create art that referenced Western styles to postwar and contemporary avant garde experiments There are in addition substantive investigations of the cultural and intellectual background that helped stimulate the creation of new and shifting art forms including essays on the invention of a modern artistic vocabulary in the Japanese language and the history of art criticism in Japan as well as an extensive account of the career and significance of perhaps the best known Japanese figure concerned with the visual arts of his period Okakura Tenshin 1862 1913 whose *Book of Tea* is still widely read today Taken together the essays in this volume allow readers to connect ideas and images thus bringing to light larger trends in the Japanese visual arts that have made possible the vitality range and striking achievements created during this turbulent and lively period Contributors Stephen Addiss Chiaki Ajioka John Clark Ellen Conant Mikiko Hirayama Michael Marra Jonathan Reynolds J Thomas Rimer Audrey Yoshiko
