Fieldwork In Transforming Societies Understanding Methodology From Experience:

Fieldwork in Transforming Societies E. Clark, S. Michailova, 2004-05-31 This book discusses the personal and professional challenges of conducting fieldwork in the difficult sometimes threatening contexts of the transforming societies of post socialist Europe and China Field research is a distinctly human effort and the social relationships between researchers third parties and respondents directly affect the quality of research findings With unusual frankness the authors share their personal field experiences and discuss both the imaginative strategies they have devised to cope with problems and the methodological lessons they have learned

Reimagining Utopias Iveta Silova, Noah W. Sobe, Alla Korzh, Serhiy Kovalchuk, 2017-07-13 Reimagining Utopias explores the shifting social imaginaries of post socialist transformations to understand what happens when the new and old utopias of post socialism confront the new and old utopias of social science This peer reviewed volume addresses the theoretical methodological and ethical dilemmas encountered by researchers in the social sciences as they plan and conduct education research in post socialist settings as well as disseminate their research findings Through an interdisciplinary inquiry that spans the fields of education political science sociology anthropology and history the book explores three broad questions How can we re imagine research to articulate new theoretical insights about post socialist education transformations in the context of globalization How can we re imagine methods to pursue alternative ways of producing knowledge And how can we navigate various ethical dilemmas in light of academic expectations and fieldwork realities Drawing on case studies conceptual and theoretical essays autoethnographic accounts as well as synthetic introductory and conclusion chapters by the editors this book advances an important conversation about these complicated questions in geopolitical settings ranging from post socialist Africa to Eastern Europe and Central Asia The contributors not only expose the limits of Western conceptual frameworks and research methods for understanding post socialist transformations but also engage creatively in addressing the persisting problems of knowledge hierarchies created by abstract universals epistemic difference and geographical distance inherent in comparative and international education research This book challenges the readers to question the existing education narratives and rethink taken for granted beliefs theoretical paradigms and methodological frameworks in order to reimagine the world in more complex and pluriversal ways

Research Ethics in Human Geography Sebastian Henn, Judith Miggelbrink, Kathrin Hörschelmann, 2021-10-25 This book explores common ethical issues faced by human geographers in their research It offers practical guidance for research planning and design that incorporates geographic disciplinary knowledge to conceptualise research ethics The volume brings together international insights from researchers in geography and related fields to provide a comprehensive overview of relevant ethical frameworks and challenges in human geography research It includes in depth reflections on a range of ethical dilemmas that arise in certain contextual conditions and spatial constructions that face those researching and teaching on spatial dimensions of social life With a focus on the increased need for specialist ethics training as part of

postgraduate education in the Humanities and Social Sciences and the necessity for fostering sensitivity in cross cultural comparative research the book seeks to enable people to engage in ethical decision making and moral reasoning while conducting research Chapters examine the implications of geographical research for conceptualising ethics and discuss specific case studies from which more general conclusions linked to conceptual debates are drawn As a research based reference guide for tackling ethically sensitive projects and international differences in legal and institutional standards and requirements the book is useful for postgraduate and undergraduate students as well as academics teaching at senior levels

Knowledge Management in Developing Economies Kate Hutchings, Kavoos Mohannak, 2007-01-01 This important book brings together a set of original key contributions to knowledge management in developing economies It encompasses a wide range of countries throughout Africa Asia the Middle East and Latin America as well as the transition economies of the former socialist countries in Eastern Europe These carefully selected country case studies represent a broad range of issues in managing knowledge They consider the way in which knowledge management processes and practices are influenced by local culture and institutions as well as by interaction with the broader international community The need for an aggregated analytical approach in untangling the increasingly complex process through which knowledge processes are created transferred and deployed is also highlighted The book provides a strong nexus between theory and practice by offering solutions to problems such as minimising knowledge leakage creating knowledge sharing cultures and promoting management learning Presenting the latest research on intercultural knowledge management this book will be warmly welcomed by researchers students and lecturers with an interest in international management and knowledge management Its strong focus on practitioner implications will provide international managers with invaluable suggestions on how to maximise knowledge sharing in international joint ventures and subsidiary operations

Historical Organization Studies

Mairi Maclean, Stewart R. Clegg, Roy Suddaby, Charles Harvey, 2020-11-26 We are now entering a new phase in the establishment of historical organization studies as a distinctive methodological paradigm within the broad field of organization studies This book serves both as a landmark in the development of the field and as a key reference tool for researchers and students For two decades organization theorists have emphasized the need for more and better research recognizing the importance of the past in shaping the present and future By historicizing organizational research the contexts and forces bearing upon organizations will be more fully recognized and analyses of organizational dynamics improved But how precisely might a traditionally empirically oriented discipline such as history be incorporated into a theoretically oriented discipline such as organization studies This book evaluates the current state of play advances it and identifies the possibilities the new emergent field offers for the future In addition to providing an important work of reference on the subject for researchers the book can be used to introduce management and organizational history to a student audience at both undergraduate and postgraduate levels The book is a valuable source for wider reading providing rich

reference material in tutorials across organizational studies or as recommended or required reading on courses with a connection to business or management history Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license [Rethinking the Case Study in International Business and Management Research](#) Rebecca

Marschan-Piekkari, Catherine Welch, 2011-01-01 This important and original book places the case study in international business research in its historical context critically evaluates current case study practices in the field and proposes a more pluralistic future for case research within international business and international management research While the case study is the most popular qualitative research strategy in the field only a narrow selection of possible approaches is currently used IB and IM researchers typically rely on a case study approach that could be characterized as qualitative positivism The editors and contributors look beyond this disciplinary convention and encourage greater pluralism in IB and IM case research Their key argument is that increased awareness of prevailing disciplinary conventions and their limitations increases the potential for methodological innovation and versatility in case research The contributions provide critical novel and innovative perspectives on the case study in IB and IM research The book offers inspiration to case authors and an authoritative methodological reference for those publishing and reviewing case research It will also be highly regarded by postgraduate and doctoral students in IB and IM as well as both qualitative and quantitative researchers in the field

Methodological Approaches to Societies in Transformation Yasmine Berriane, Annuska Derks, Aymon Kreil, Dorothea Lüddeckens, 2021-04-21 This open access book provides methodological devices and analytical frameworks for the study of societies in transformation It explores a central paradox in the study of change making sense of change requires long term perspectives on societal transformations and on the different ways people experience social change whereas the research carried out to study change is necessarily limited to a relatively short space of time This volume offers a range of methodological responses to this challenge by paying attention to the complex entanglement of qualitative research and the metanarratives generally used to account for change Each chapter is based on a concrete case study from different parts of the world and tackles a diversity of topics analytical approaches and data collection methods The contributors innovative solutions provide valuable tools and techniques for all those interested in the study of change **States Under Scrutiny**

cleaning a canal or going on a trading trip have a major effect on people's social relations and are also rich in cultural meaning and ritual significance. This book is an exploration of how pottery is embedded within wider activities and cultural understandings of present day Andean society and how the rhythm of exchange practices with different materials and within different social groups sets up a framework through which people experience and interpret the world around them. It is hoped that this will enable other researchers to better investigate similar types of interconnections within the specifics of their own data.

Dance and Society International Council for Traditional Music. Study Group on Ethnochoreology. Symposium, 2005

At the 22nd symposium of the ICTM International Council of Traditional Music Study Group on Ethnochoreology held in Szeged Hungary a topic of examination included Re appraising Our Past Moving into the Future Research on Dance and Society. This book is a product of the symposium research topic. Participants of the meeting presented several new thoughts and ideas which provide guidelines and further encouragement for researchers in this field. Several presentations examined how information is collected raising issues related to memory intellectual versus kinesthetic modes of data collection and the use of technology and the internet. A number of papers touched on the impact the research has on the subjects researched and vice versa. Another theme touched on the importance of a significant data pool and questions of extensive exhaustive data versus data that comprises a selected sampling.

Amitav Ghosh Brinda Bose, 2003

Amitav Ghosh Critical Perspectives Presents A Wide Range Of Incisive Scholarly Criticism On The Eminent Indian Writer S Work To Date With An Introduction That Places Amitav Ghosh In The Context Of His Historical Cultural Social Political Times. This Anthology Brings Together Both Established And New Critics In Their Perceptive Grasp Of Ghosh S Extraordinary Oeuvre Of Fiction Staring From *The Circle Of Reason* 1986 Through *The Shadow Lines* 1988 In *An Antique Land* 1992 And *The Calcutta Chromosome* 1996 To The Fairly Recent *The Glass Palace* 2000. Ghosh S Best Known And Most Influential Piece Of Political Writing A Greater Emphasis Is Placed On *The Shadow Lines* And *An Antique Land* Which Have Received The Widest Critical Attention And Are As Yet The Ghosh Text Most Taught In University Courses Across The World. An Innovative Pedagogy Section In This Collection Also Explores These Texts From Both Teachers And Students Perspectives As They Play Out In Classrooms At Locations As Far Apart As Delhi And The American Mid West. An Interview With Amitav Ghosh Animates This Anthology With An Authorial Intervention That Perhaps Unwittingly Both Validates And Questions The Praxis Of Literary Criticism Today In Its Peculiarly Postmodern Predicament.
