

# Intermediate Algebra Questions (worksheet 1)

**Q1.** Choose the correct answer.

(a) If  $f(x) = 3x^2 - 7x + 5$ , then  $f(-1) =$

**A.** 1

**B.** -1

**C.** 9

**D.** 8

(b) Which of these values of  $x$  satisfies the inequality  $-2x + 4 \leq -6$

**A.** 5

**B.** 0

**C.** -2

**D.** -6

(c) The domain of the function  $f(x) = \sqrt{x+2}$  is given by

**A.**  $x > 2$

**B.**  $x > -2$

**C.**  $x \geq 2$

**D.**  $x \geq -2$

(d) The lines  $x = 3$  and  $y = -2$  are

**A.** Parallel

**B.** Perpendicular

**C.** Neither parallel nor perpendicular

**D.** none of these

(e) The equation  $|3x + 1| = k$  has no solutions if  $k =$

**A.** 0

**B.** 3

**C.** 1

**D.** -1

**Elementary and Intermediate Algebra** Alan S. Tussy, R. David Gustafson, 2012-01-01 The main focus of ELEMENTARY AND INTERMEDIATE ALGEBRA 5e is to address the fundamental needs of today's developmental math students Offering a uniquely modern balanced program ELEMENTARY AND INTERMEDIATE ALGEBRA 5e integrates conceptual understanding with traditional skill and practice reinforced through visual and interactive practice in Enhanced WebAssign available exclusively from Cengage Learning By helping students understand the language of algebra and the why behind problem solving through instructional approaches and worked examples they are better equipped to succeed at the how Practice is essential in making these connections and it is emphasized in ELEMENTARY AND INTERMEDIATE ALGEBRA 5e with additional practice problems both in the text and Enhanced WebAssign Give your students confidence by showing them how Algebra is not just about the x it's also about the WHY Important Notice Media content referenced within the product description or the product text may not be available in the ebook version

**College Algebra with Intermediate Algebra** Judith A. Beecher, Judith A. Penna, Marvin L. Bittinger, Barbara L. Johnson, 2016-08-10 NOTE This edition features the same content as the traditional text in a convenient three hole punched loose leaf version Books a la Carte also offer a great value this format costs significantly less than a new textbook Before purchasing check with your instructor or review your course syllabus to ensure that you select the correct ISBN Several versions of Pearson's MyLab Mastering products exist for each title including customized versions for individual schools and registrations are not transferable In addition you may need a CourseID provided by your instructor to register for and use Pearson's MyLab Mastering products For courses in Intermediate and College Algebra Intermediate through College Algebra A Streamlined Experience College Algebra with Intermediate Algebra A Blended Course is an innovative new program from the Beecher et al author team Designed to meet your changing needs in Intermediate Algebra

and College Algebra courses this program eliminates the repetition in topic coverage across the traditional two course sequence. The result is a streamlined course experience that makes better use of time and resources. The careful arrangement of topics, one building on the next without redundancy, motivates and creates a solid foundation of knowledge. This new streamlined approach to these courses is complemented by the authors' innovative ability to help you see the math through their focus on visualization, early introduction to functions and graphing, and making connections between math concepts and the real world.

**Intermediate Algebra** Joanne S. Lockwood, Richard N. Aufmann, 2013-01-07. As in previous editions, the focus in *INTERMEDIATE ALGEBRA AN APPLIED APPROACH 9E International Edition* remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. Student engagement is crucial to success. Presenting students with worked examples and then providing them with the opportunity to immediately solve similar problems helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Ninth Edition also features a new design enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow.

**Video Notebook with Integrated Review for Beginning & Intermediate Algebra** Elayn Martin-Gay, 2022-10-16. For courses in Beginning, they also need soft skills support that teaches them how to be students. Beginning Intermediate Algebra 7th Edition continues her focus on student success by tightening the connection between her hallmark math instruction and emphasis on study skills, blending them in a new video series. Hallmark features of this title: Concept Checks help students gauge their grasp of an idea as it is presented and help prevent misconceptions. Exercise sets include Guided Applications, Mixed Practice, Concept Extension, and Vocabulary Readiness. Video Checks: A study skills focus helps students make the most of study time. Resources include Section 1.1 Tips for Success in Mathematics, a Video Notebook to encourage good note taking and study skills, resources in MyLab Math. End of chapter material helps students reinforce concepts in the most teachable moment when preparing for a test. Getting Ready for the Test exercises help students check their understanding and avoid common errors. New and updated features of this title: Thoroughly examined and revised Exercise Sets feature a special focus on carefully pairing even and odd numbered exercises. Real life applications and data are made current to keep content relevant for today's students. Updated applications include social media use, stock share prices, and job growth predictions. Updated Extension

Exercises Exploration Activities Conceptual Exercises and Group Activities are provided in the Key Concept Activity Workbook This workbook is available through MyLab Math The Video Notebook has been updated to reflect updates made to the videos lectures This note taking guide workbook provides students with the all important skill of taking and keeping organized notes It covers all video examples in order and gives prompts with ample space to note definitions and rules Features of MyLab Math for the 7th Edition All new Section Lecture Videos merge study strategies with the math instruction allowing instructors to include study skills in their course without taking up valuable time Every section in the text has a completely new Lecture Video featuring Elayn Martin Gay s friendly presentation style Videos introduce common errors and study tips along with the mathematics Other video resources include Getting Ready for the Test video solutions and Chapter Test Prep solutions both of which help students in their most teachable moment and Student Success Tip videos A new Mindset module includes assignable growth mindset focused videos and exercises that help students keep a positive attitude about learning value their own ability to grow and view mistakes as learning opportunities New GeoGebra animations can be assigned with exercises and ask students to interact with the math in a visual way Integrated Review in MyLab Math helps students who need a refresher on prerequisite skills Premade assignments include a Chapter Skills Check on prerequisite skills and a follow up personalized homework focusing each student on just the topics they need Videos and worksheets offer more instruction on topics where students might require extra help

### **Focus On Intermediate Algebra Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Focus On Intermediate Algebra has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Focus On Intermediate Algebra has opened up a world of possibilities. Downloading Focus On Intermediate Algebra provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate

access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Focus On Intermediate Algebra has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Focus On Intermediate Algebra. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Focus On Intermediate Algebra. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers.
