Essential Jung:

The Essential Jung Carl Gustav Jung, 1999 Extracts from Jung's writings that pinpoint his many original contributions and relate the development of his thought to his biography Page 4 of cover

The Essential Jung C. G. Jung, 2013-10-10 In this compact volume British psychiatrist and writer Anthony Storr has selected extracts from Jung's writings that pinpoint his many original contributions and relate the development of his thought to his biography Storr's explanatory notes and introduction show the progress and coherence of Jung's ideas These notes link the extracts and with Dr Storr's introduction they show the progress and coherence of Jung's ideas including such concepts as the collective unconscious the archetypes introversion and extroversion individuation and Jung's view of integration as the goal of the development of the personality Jung maintained that we are profoundly ignorant of ourselves and that our most pressing task is to deflect our gaze away from the external world and toward the study of our own nature In a world torn by conflict and threatened by annihilation his message has an urgent relevance for every thoughtful person

The Sleep Revolution Arianna Huffington,2017-04-04 Co founder and editor in chief of *The Huffington Post* Arianna Huffington shows how our cultural dismissal of sleep as time wasted compromises our health and our decision making and undermines our work lives our personal lives and even our sex lives in this New York Times bestseller We are in the midst of a sleep deprivation crisis with profound consequences to our health our job performance our relationships and our happiness What we need is nothing short of a sleep revolution only by renewing our relationship with sleep can we take back control of our lives In *The Sleep Revolution* Arianna explores all the latest science on what exactly is going on while we sleep and dream She takes on the sleeping pill industry and all the ways our addiction to technology disrupts our sleep She also offers a range of recommendations and tips from leading scientists on how we can get better and more restorative sleep and harness its incredible power The result is a sweeping scientifically rigorous and deeply personal exploration of sleep from all angles from the history of sleep to the role of dreams in our lives to the consequences of sleep deprivation and the new golden age of sleep science that reveals the vital role sleep plays in our every waking moment and every aspect of our health from weight gain diabetes and heart disease to cancer and Alzheimer s In today s fast paced always connected perpetually harried and sleep deprived world our need for a good night s sleep is more important and elusive than ever *The Sleep Revolution* both sounds the alarm on our worldwide sleep crisis and provides a detailed road map to the great sleep awakening that can help transform our lives our communities and our world

Collateral Damage Robin Gordon,2025-04-05 *Collateral Damage* explores from a Jungian perspective the experiences of victims of another s hubris that sets them on an involuntary journey to the metaphorical Underworld a contemporary experience that has roots in mythology Relevant topics include exploring the nature of the Underworld considering the

mythology of hubris with modern examples and the loss of one's moral compass in the process of seeking power at the expense of others. Myth and Jungian Depth Psychology provide context for understanding several stories of people who sometimes not only survived their journey to the Underworld but experienced a type of psychological transformation Jung called individuation. The stories derive from people who lived through the Holocaust, American enslavement of Africans, and Japanese internment camps, making use of personal diaries, interviews, and/or memoirs in order to ensure their voices predominate in the narrative. This choice is deliberate in that more current work in resilience is grounded in modern trauma and current thinking in traditional psychology. That work is significant and has helped many. The stories focused upon have for the most part been overlooked but as we see themes emerge that are truly relevant for today.

The Power and Secret of the Jesuits René Fülöp-Miller, 1930 **The Hidden Essence of Art** Stephen Newton, 2025-08-26 This book offers a wide ranging review of art throughout the ages to isolate the original source of religions and religious practices within the symbiotic relationship between art production and universal ritual procedures. A psychoanalytic perspective identifies the creative process as the common factor and integral structure of not only the formation of the art object but also ritual enactments and performance and furthermore religious doctrine and ceremony. The ritual creative process is unearthed as the unique prototype for the fundamental concept of death and resurrection that underpins religious belief. The book was written with the general reader in mind but it will also be of interest to psychoanalytic researchers, art historians, and art practitioners as well as to theologians.
