Send Us a Lady Physician Ruth J. Abram, 1985 The irony of women's acceptance into the medical world and the unfortunate decline in their status at the beginning of the twentieth century is illustrated in this volume through words and pictures By focusing on the class of 1879 at the Woman's Medical College of Pennsylvania the authors of the various essays depict individual trials frustrations and victories of nineteenth century women physicians and we come to understand a vital aspect of our history and how it affects us all today

An American Health Dilemma W. Michael Byrd, Linda A. Clayton, 2012-10-02 At times mirroring and at times shockingly disparate to the rise of traditional white American medicine the history of African American health care is a story of traditional healers root doctors granny midwives underappreciated and overworked African American physicians scrupulous and unscrupulous white doctors and scientists governmental support and neglect epidemics and poverty Virtually every part of this story revolves around race More than 50 years after the publication of An American Dilemma Gunnar Myrdal's 1944 classic about race relations in the USA An American Health Dilemma presents a comprehensive and groundbreaking history and social analysis of race race relations and the African American medical and public health experience Beginning with the origins of western medicine and science in Egypt Greece and Rome the authors explore the relationship between race medicine and health care from the precursors of American science and medicine through the days of the slave trade with the harrowing middle passage and equally deadly breaking in period through the Civil War and the gains of reconstruction and the reversals caused by Jim Crow laws It offers an extensive examination of the history of intellectual and scientific racism that evolved to give sanction to the mistreatment medical abuse and neglect of African Americans and other non white people Also included are biographical portraits of black medical pioneers like James McCune Smith the first African American to earn a degree from a European university and anecdotal vignettes like the tragic story of the Hottentot Venus which illustrate larger themes An American Health Dilemma promises to become an irreplaceable and essential look at African American and medical history and will provide an invaluable baseline for future exploration of race and racism in the American health system

An American Health Dilemma: Race, medicine, and health care in the United States 1900-2000 W. Michael Byrd, Linda A. Clayton, 2000 This volume is a comprehensive collection of critical essays on The Taming of the Shrew and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority

female autonomy and unruliness courtship and marriage language and speech and performance and theatricality The Encyclopaedia and Dictionary of Education Foster Watson,1921 **Black Physicians in the Jim Crow South** Thomas J. Ward,2010-02-01 Drawing on a variety of sources from oral histories to the records of professional organizations Thomas J Ward Jr examines the development of the African American medical profession in the South Illuminating the contradictions of race and class this research provides valuable new insight into class divisions within African American communities in the era of segregation *Race and Medicine in Nineteenth- and Early-twentieth-century America* Todd Lee Savitt,2007 During the days of slavery in America racism and often faulty medical theories contributed to an atmosphere in which African Americans were seen as chattel some white physicians claimed that African Americans had physiological and anatomical differences that made them well suited for slavery These attitudes continued into the Reconstruction and Jim Crow eras In *Race and Medicine* historian Todd Savitt presents revised and updated versions of his seminal essays on the medical history of African Americans in the late nineteenth and early twentieth centuries especially in the South This collection examines a variety of aspects of African American medical history including health and illnesses medical experimentation early medical schools and medical professionals and slave life insurance Savitt examines the history of sickle cell anemia and identifies the first two patients with the disease noted in medical literature He proposes an explanation of why the disease was not well known in the general African American population for at least 50 years after its discovery Charleston Low Country and not elsewhere in the country Other topics Savitt explores include African American medical schools the formation of an African American medical profession and SIDS among Virginia slaves With its new research data and interpretations of existing materials *Race and Medicine* will be a valuable resource to those interested in the history of medicine and African American history as well as to the medical community *Recollections* Washington Gladden,1909 **Primary Education, Popular Educator** ,1927 **The Republic** ,1874 **A Cyclopaedia of Education** Paul Monroe,1911 *The Mid-Pacific Magazine* ,1928 **Fourth International Congress on School Hygiene, Buffalo, New York, U.S.A., August 25-30, 1913.
