The Albanian-American Odyssey Dennis L. Nagi, 1989 **John McCain** Elaine S. Povich, 2009-02-24 A rebel and risk taker from childhood John McCain son and grandson of admirals nevertheless chose to follow the traditional path marked out for him in the military Nearly six years in a North Vietnamese prison tested his resolve and proved his extraordinary resilience and will to survive Coming to Congress McCain found that making his way in politics demanded a different set of survival skills and he grew accustomed to the corridors of power while striving to keep his independence This lively biography traces McCain s unlikely ascent to the verge of attaining the nation s highest office while never ceasing to challenge himself and others to serve a cause greater than self interest **Educating Democratic Citizens in Troubled Times** Janet S. Bixby, Judith L. Pace, 2008-11-13 Examines various aspects of citizen education programs that serve contemporary youth in the United States **World Yearbook of Education 2011** Lyn Yates, Madeleine Grumet, 2011-02-01 How do curriculum conceptions of knowledge and the schooling experiences of young people engage the great issues of this tumultuous time Curriculum is always influenced by the events that shape our world but when testing and bench marking preoccupy us we can forget the world that is both the foundation and the object of curriculum This edited volume brings together international contributors to analyze and reflect on the way the events of the last decade have influenced the curriculum in their countries As they address nationalism in the face of economic globalisation the international financial crisis immigration and the culture of diaspora they ask how national loyalties are balanced with international relationships and interests They ask how the rights of women and of ethnic and racial groups are represented They ask what has changed about history and civics post 9 11 and they ask how countries that have experienced profound political and economic changes have addressed them in curriculum These interactions and changes are a subject of particular interest for an international yearbook in that they are almost always permeated by global movements and influenced by multinational bodies and practices And as these essays show in curriculum global and international issues are explicitly or implicitly also about local and national interests and about how citizens engage their rights and responsibilities This volume brings together a new approach to perspectives on curriculum today and a new collection of insights into the changes from different parts of the world which discuss How is the world represented in curriculum How do responses to world events shape the stories we tell students about who they are and can be This book will be of great benefit to educational researchers and policy makers as well as undergraduate and postgraduate students *Controversy in the Classroom* Diana E. Hess, 2009-05-26 In a conservative educational climate that is dominated by policies like No Child Left Behind one of the most serious effects has been for educators to worry about the politics of what they are teaching and how they are teaching it As a result many dedicated teachers choose to avoid controversial issues altogether in preference for safe knowledge and safe teaching practices Diana Hess interrupts this dangerous trend by providing readers a spirited and detailed argument for why curricula

and teaching based on controversial issues are truly crucial at this time Through rich empirical research from real classrooms throughout the nation she demonstrates why schools have the potential to be particularly powerful sites for democratic education and why this form of education must include sustained attention to authentic and controversial political issues that animate political communities The purposeful inclusion of controversial issues in the school curriculum when done wisely and well can communicate by example the essence of what makes communities democratic while simultaneously building the skills and dispositions that young people will need to live in and improve such communities
