

# Tachometer

The tachometer calculates your average speed over a distance of one kilometer or one mile.

Measure the time it takes to travel one kilometer or one mile (1-60-sec. register). The position of the seconds-hand on the tachometer scale marks your average speed in kilometers per hour or miles per hour.

**fig. 1**

## Using the unidirectional turning bezel

At the start of a dive, turn the bezel so that the zero mark is in front of the minute-hand (**fig.1**).

The minute-hand will always show the number of minutes that have elapsed since the dive started (**fig.2**).

**fig. 2**

*30 minutes have elapsed since the start of the dive.*
