Research Methods in Criminal Justice and Criminology Lee Ellis, Richard D. Hartley, Anthony Walsh, 2010 With masterful storytelling Bergland and Hayes demonstrate how Lapham blended his ravenous curiosity with an equable temperament and a passion for detail to create a legacy that is still relevant today John Gurda In this long overdue tribute to Wisconsin s first scientist authors Martha Bergland and Paul G Hayes explore the remarkable life and achievements of Increase Lapham 1811 1875 Lapham s ability to observe understand and meticulously catalog the natural world marked all of his work from his days as a teenage surveyor on the Erie Canal to his last great contribution as state geologist Self taught Lapham mastered botany geology archaeology limnology mineralogy engineering meteorology and cartography A prolific writer his 1844 guide to the territory was the first book published in Wisconsin Asked late in life which field of science was his specialty he replied simply I am studying Wisconsin Lapham identified and preserved thousands of botanical specimens He surveyed and mapped Wisconsin s effigy mounds He was a force behind the creation of the National Weather Service lobbying for a storm warning system to protect Great Lakes sailors Told in compelling detail through Lapham s letters journals books and articles Studying Wisconsin chronicles the life and times of Wisconsin s pioneer citizen scientist

Process and Pattern in Culture Robert Alan Manners, Julian Haynes Steward, This festschrift commemorates Julian H Steward The essays were contributed by former students colleagues and other anthropologists whose research or thinking has been influenced by him There was no preconceived attempt to give the volume any greater sense of unity or to impose upon the contributors any restrictions as to subject matter On the contrary each author was urged to write on an

anthropological topic of greatest current interest to himself Many of the essays could be placed just as handily within a division other than the one to which they have arbitrarily been assigned in the book This kind of interchangeability may reflect in some measure the interrelatedness of Steward s contributions to anthropological theory The broad relevance of all the selections to Steward s work could reflect also the extent to which his interests continue to be reflected in the work of anthropologists influenced by him It could also reflect a parallelism of theoretical concerns within the profession that stem from the cultural ambience that produced Steward himself Parallelisms and convergence are aspects of the kind of cultural determinism which has claimed Steward s attention during the many years that he fought a fairly lonely battle to establish the respectability of evolutionism in anthropology Now that respectability has been achieved with an almost bandwagon fervor it is clear that Steward as much as anyone else in anthropology was responsible for the change The essays in this collection are at once a vindication of his patience an evidence of the high status he enjoys among anthropologists and a testimony to the impact of his unusual creativity on his colleagues

Atlas of World Cultures David H. Price, Originally published in 1990 this is the ultimate resource for geographically locating the myriad of cultures described in ethnographic literature The heart of *Atlas of World Cultures A Geographical Guide to Ethnographic Literature* is a set of forty one maps that physically locate for the researcher more than 3500 groups tribes or peoples For any student or professional reading ethnographic or cross culture research this feature alone is invaluable The author does more by providing a comprehensive index and a 1237 item bibliography that enables the reader to go beyond geographic location and find some of the classic literature on each of these groups Cross references to listings of the cultures in the Human Relations Area Files and Murdock s *Ethnographic Atlas* provide other keys to learning more about the culture in question and makes this a crucial reference research tool
