Our Harsh Logic Breaking the Silence,2012-09-18 Israeli soldiers speak out for the first time about the truth of the Palestinian occupation One of the most important books on Israel Palestine in this generation The New York Review of Books The very name of the Israel Defense Forces which many Israelis speak of as the most moral army in the world suggests that its primary mission is the defense of the country s territory Indeed both internationally and within Israel support for the occupation of Palestinian territory rests on the belief that the army s actions and presence in the West Bank and Gaza are essentially defensive and responsive aimed at protecting the country from terror But Israeli soldiers themselves tell a profoundly different story In this landmark work which includes hundreds of soldiers testimonies collected over a decade what emerges is a broad policy that is anything but defensive In their own words the soldiers reveal in human and vivid detail how the key planks of the army s ostensibly protective program prevention of terror separation of populations preservation of the fabric of life and law enforcement have in fact served to accelerate acquisition of Palestinian land cripple all normal political and social life and ultimately thwart the possibility of independence The many soldiers who have spoken out have taken aim at a silence of complicity both within Israel and in the wider world that perpetuates the justification for occupation In the process they have created a gripping and immediate record of oppression Powerful and incontrovertible *Our Harsh Logic* is a supremely significant contribution to one of the world s most vexed conflicts *American Book Publishing Record* ,1968

Jewish Giving Jack Wertheimer,2025-07-22 Evaluating Jewish donors over time The American Jewish philanthropic

enterprise is unparalleled in scope dynamism and the diversity of funders and the causes they support Yet even as Jewish giving has been largely successful in responding with alacrity to emergencies it has been subjected to severe criticism What once was regarded as a point of pride has become the object of scorn and dismissal with skepticism if not harsh criticism about its work rife both within and outside Jewish communal circles Based on 320 interviews with professionals at Jewish not for profits across the United States principals of foundations and their top staff personnel and also tax filings of major foundations Jewish Giving provides readers with fresh perspectives to evaluate the efforts of Jewish donors large and small The book traces the evolution of Jewish giving from the colonial era to the present charting the changing profile of those who give to Jewish causes and what funders have aimed to achieve through their largesse It makes the case that philanthropy serves as a prism through which broader themes in communal life are illuminated As society or politics change the priorities of charitable giving adjust in response These changes in targeted funding can help to sharpen our understanding of demographic and social patterns Devoting much attention to twenty first century developments in contemporary Jewish giving the book pays special attention to the changing landscape of donors who are remaking Jewish philanthropy including women Orthodox Jews Sephardi givers and young funders

Our Harsh Logic ,2012-09-18 Hundreds of Israeli soldiers speak out about the Palestinian occupation revealing that their presence is not merely for defense but also to accelerate the acquisition of Palestinian land and work against an independent Palestinian nation
