**The Hard-boiled Virgin** Frances Newman, 1954 *Away Down South* James C. Cobb, 2005-10-01 From the seventeenth century Cavaliers and Uncle Tom's Cabin to Civil Rights museums and today's conflicts over the Confederate flag here is a brilliant portrait of southern identity served in an engaging blend of history literature and popular culture In this insightful book written with dry wit and sharp insight James C Cobb explains how the South first came to be seen and then came to see itself as a region apart from the rest of America As Cobb demonstrates the legend of the aristocratic Cavalier origins of southern planter society was nurtured by both northern and southern writers only to be challenged by abolitionist critics black and white After the Civil War defeated and embittered southern whites incorporated the Cavalier myth into the cult of the Lost Cause which supplied the emotional energy for their determined crusade to rejoin the Union on their own terms After World War I white writers like Ellen Glasgow William Faulkner and other key figures of Southern Renaissance as well as their African American counterparts in the Harlem Renaissance Cobb is the first to show the strong links between the two movements challenged the New South creed by asking how the grandiose vision of the South's past could be reconciled with the dismal reality of its present The Southern self image underwent another sea change in the wake of the Civil Rights movement when the end of white supremacy shook the old definition of the Southern way of life but at the same time African Americans began to examine their southern roots more openly and embrace their regional as well as racial identity As the millennium turned the South confronted a new identity crisis brought on by global homogenization if Southern culture is everywhere has the New South become the No South Here then is a major work by one of America's finest Southern historians a magisterial synthesis that combines rich scholarship with provocative new insights into what the South means to southerners and to America as well

created within her gracious and gentle exterior a turmoil of frustration confusion and resentment This concept of upper middle class white southern womanhood forms an important part of the imaginative expression of the southern women writers whose works and lives form the subject matter of this book All seven Augusta Jane Evans Grace King Kate Chopin Mary Johnston Ellen Glasgow Frances Newman and Margaret Mitchell were themselves products of this genteel tradition Anne Goodwyn Jones explains that her aim is not to link biography and art but to seek in the lives and works of these seven southern women writers common patterns that can lead to ways to discern the mind of the southern lady Tomorrow Is Another Day shows that by writing themselves and their characters into being by expressing their voices however variant in tone these seven writers wrote themselves into another day **The Bookman** ,1930
