Documents on the Balkans - History, Memory, Identity Margit Rohringer, 2020-06-01 This book explores historical discourses on the various forms of identity production in film that are based on memory and shows how these narratives get mediated by documentary film Most films about the Balkans produced in the last two decades were in fact made in response to immediate concerns about the economic crises and political conflicts that struck the region during the 1990s These new forms of communication about history mostly show a rather self critical approach The book's case studies give the reader a clear idea of how processes informing identity formations are directly launched and later on maintained in peoples real and everyday lives Thus the case studies principal objective is to integrate the study of private space with existing macro debates in politics as well as with dominant discourses within the academic community The included case studies focus on several topics i e migration the reproduction and protection of personal as well as collective identities in post socialist societies revolutionary processes towards the official end of the Cold War the re creation of politically constructed narratives generational conflicts in the post socialist period and the fate of women during the war The multifaceted view of the region under focus in this study shows that common grounds

and differences co exist in the Balkan space be it on a cultural economic social or geo political level Apart from the field of film studies this work is a powerful contribution to cultural history as well as to the growing field of visual history
