**Pamphlets on Forest Policy**, 1911 **Who Controls Public Lands?** Christopher McGrory Klyza, 2000-11-09 In this historical and comparative study Christopher McGrory Klyza explores why land management policies in mining forestry and grazing have followed different paths and explains why public lands policy in general has remained virtually static over time According to Klyza understanding the different philosophies that gave rise to each policy regime is crucial to reforming public lands policy in the future Klyza begins by delineating how prevailing policy philosophies over the course of the last century have shaped each of the three land use patterns he discusses In mining the model was economic liberalism which mandated privatization of public lands in forestry it was technocratic utilitarianism which called for government ownership and management of land and in grazing it was interest group liberalism in which private interests determined government policy Each of these philosophies held sway in the years during which policy for that particular resource was formed says Klyza and continues to animate it even today Bulletin National Association of Wool Manufacturers, 1925 A bibliography of wool and the woolen manufacture v 21 1891 p 118 134 American Forests Char Miller, 1997 *American Forests* is an interdisciplinary collection of essays that explore the impact of forestry on natural and human landscapes since the mid nineteenth century It has two main goals to present some of the most compelling arguments that have guided our understanding of the complex and evolving relationship between trees and people in the United States and to point out those aspects of this tangled interaction that we have yet fully to understand or to articulate Preface ix *Trusteeship in Change* Imre Sutton, Richmond L.
