
Net Foreign Factor income- NFFI

Net foreign factor income = US citizens income earned abroad minus foreign citizens income earned in US.

Similar to how we included imports in C, I and G in the expenditure approach and subtracted it out later, when wages, rent, interest and profit are earned it includes those values for all nationals, whether the funds are earned in the US or abroad. BUT, GDP is a measure of production within the borders. National income was income of nationals in and out of the border. SOOOOO, we have to subtract out the income of US citizens that was earned abroad. Plus income earned by foreigners working here must be added because they worked in the domestic economy. This means we have national income minus NFFI so far in our income approach to GDP.

Foreign Factor

Thomas Griffiths

Foreign Factor:

Thank you completely much for downloading **Foreign Factor**. Maybe you have knowledge that, people have see numerous times for their favorite books in imitation of this Foreign Factor, but stop taking place in harmful downloads.

Rather than enjoying a good PDF taking into consideration a cup of coffee in the afternoon, instead they juggled in imitation of some harmful virus inside their computer. **Foreign Factor** is affable in our digital library an online access to it is set as public thus you can download it instantly. Our digital library saves in complex countries, allowing you to get the most less latency times to download any of our books later than this one. Merely said, the Foreign Factor is universally compatible past any devices to read.
