New Europe, New Germany, Old Foreign Policy? The Challenges of European Governance in the Age of Economic Stagnation, Immigration, and Refugees Henry F. Carey, 2016-12-20 This book examines the political and legal challenges of regional governance of the 28 countries of the European Union and the 48 in the Council of Europe The contributions dilemmas and moral hazards from this record of nearly seven decades of regional inter governmental institutions has kept the peace but produced episodes of crisis from overstressing jurisdictions thematically and geographically Polarization between nationalist and integrative forces has displaced the idealistic aspirations of prior decades to build the rule of law and deter violence Academics and policy makers will learn from the various legal and political efforts to integrate supranational and inter governmental agencies with national political systems

The Foreign Policies of Eastern Europe James A. Kuhlman, 1978-02-02

Cartelisation, Convergence or Increasing Similarities? Henrik Enroth, Magnus Hagevi, 2018-03-02 It is often suggested that political parties are becoming increasingly alike and that party politics has turned into an elite affair where political professionals collude to further their self interest rather than work to represent the interests of their constituents In recent decades this diagnosis has been famously associated with Richard Katz and Peter Mair s cartel party theory Yet so far this controversial thesis has not been subjected to systematic empirical scrutiny nor has its conceptual and normative underpinnings been properly considered In this volume a group of political scientists with different specialisations take on this task focusing empirically on the Swedish party system which the originators of the cartel party theory have suggested is especially conducive to the formation of party cartels Collecting new and unique qualitative and quantitative data the volume casts serious doubt on the validity of the cartel party theory as an explanation for party system change

Ferreira-Pereira,2024-06-28 This book seeks to offer a better understanding of the strategic responses to Brexit from ten small European Union EU member states Croatia Czech Republic Estonia Finland Ireland Latvia Lithuania Malta Portugal and Slovakia Inspired in an intersection of different streams of research it examines the extent and the ways Brexit has impacted these countries analysing their coping strategies to deal with the challenges raised by such a disruptive development as well as considering the implications of their reactions to Brexit for patterns of national foreign policy Europeanization In so doing this volume enhances the comprehension of smaller EU member states foreign and security policies offering a systematic and comparative analysis of how political and diplomatic elites in ten countries positioned themselves domestically and within the EU vis vis the Brexit process A combination of conceptual insights valuable empirical accounts and updated knowledge on contemporary issues from such interesting set of case studies provides room for debate on the comparability of the way s in which different small countries have approached their Brexit strategies All these aspects are explored with respect to states that have been relatively neglected and underexplored in the small states literature This edited volume will be of great value to upper level students academics and researchers interested in European politics foreign policy and international relations The chapters in this book were originally published as a special issue of Journal of Contemporary European Studies **Foreign Ministries** B. Hocking,2016-07-27 In seeking to test the conventional wisdom that foreign ministries are in decline the contributors to this book examine the role and status of foreign ministries in twelve countries together with their place within the European Union Valuable information on the response of the foreign policy machinery to change at both the domestic and international levels is provided as are important insights into the linkages between foreign policy and the mechanisms through which it is conducted This book will be essential reading for those concerned with foreign policy making in the post Cold War era as well as those interested in the evolving machinery of government in its broader context American Foreign Policy Carnegie Endowment for International Peace. innovative even revolutionary forms of diplomatic organisation *The Foreign Policies of European Union Member States*
Ian Manners, Richard G. Whitman, 2000 The only comparative analysis of the foreign policies of European Union member
states Examines those policies which are Europeanised through the EU's processes and those policies which are retained or

War environment on the foreign policy processes of the EU's member states Argues for a distinctive approach to the foreign
policy analysis of EU states which recognises the fundamental changes that membership brings after the Cold War but also
acknowledges the diverse role of policies which states seek to retain or advance as being special All the empirical chapters
