Learning, 1985 Education and Technology Robert Muffoletto, 2001 This collection brings together discussions related to educational technology and critical and reflective thought and practices Chapters raise questions concerning the social political and economic implications of technology on schooling teacher education and educational reform

Understanding the Math You Teach Anita C. Burris, 2005 Teaching strategies are grounded in the NCTM standards and illustrated with real student work In addition the author provides a full range of concrete developmental activities that encourage future teachers to make math make sense for themselves as well as for their students Believing that teachers who are comfortable with mathematics develop learners who are comfortable with mathematics this author empowers preservice preK 4 teachers to teach math confidently by laying a solid foundation of math concepts and building on that foundation with engaging meaningful standards based teaching methods Integrated in this unique combined approach to teaching mathematics is a thorough discussion of math manipulatives as well as the use of technology computer and otherwiseto assist today s mathematics teacher For educators aids and parents responsible for teaching Pre K to fourth grade math **Young Children and Families in the Information Age** Kelly L. Heider, Mary Renck Jalongo, 2014-12-05 This edited book presents

the most recent theory research and practice on information and technology literacy as it relates to the education of young children Because computers have made it so easy to disseminate information the amount of available information has grown at an exponential rate making it impossible for educators to prepare students for the future without teaching them how to be effective information managers and technology users Although much has been written about information literacy and technology literacy in secondary education there is very little published research about these literacies in early childhood education Recently the National Association for the Education of Young Children and the Fred Rogers Center for Early Learning and Children s Media at Saint Vincent College published a position statement on using technology and interactive media as tools in early childhood programs This statement recommends more research to better understand how young children use and learn with technology and interactive media and also to better understand any short and long term effects Many assume that today s young children are digital natives with a great understanding of technology However children may know how to operate digital technology but be unaware of its dangers or its value to extend their abilities This book argues that information and technology literacy include more than just familiarity with the digital environment They include using technology safely and ethically to demonstrate creativity and innovation to communicate and collaborate to conduct research and use information and to think critically solve problems and make decisions
