walked by the sheep raised her head and looked right at him She was still alive and the one thing Baur knew for sure that day was that he had to get her to safety Hilda as she was later named was nursed back to health and soon became the first resident of Farm Sanctuary an organization dedicated to the rescue care and protection of farm animals The truth is that farm production does not depend on the family farmer with a small herd of animals but instead resembles a large assembly line factory Animals raised for human consumption are confined for the entirety of their lives and often live without companionship fresh air or even adequate food and water Viewed as production units rather than living beings with feelings ten billion farm animals are exploited specifically for food in the United States every year In Farm Sanctuary Baur provides a thoughtprovoking investigation of the ethical questions involved in the production of beef poultry pork milk and eggs and what each of us can do to stop the mistreatment of farm animals and promote compassion He details the triumphs and the disappointments of more than twenty years on the front lines of the animal protection movement And he introduces sanctuary us to some of the special creatures who live at Farm Sanctuary from Maya the cow to Marmalade the chicken all of whom escaped horrible circumstances to live happier more peaceful lives Farm Sanctuary shows how all of us have an opportunity and a responsibility to consume a kinder plate making a better life for ourselves and animals as well You will certainly never think of a hamburger or chicken breast the same way after reading this book
