Fast Finger Snacks:

The McDonaldization of Society George Ritzer, 2020-12-03 George Ritzer's seminal work of critical sociology *The McDonaldization of Society* continues to stand as one of the pillars of modern sociological thought. Building on the argument that the fast food restaurant has become the model for the rationalization process today, this book links theory to contemporary life in a globalized world and resonates with students in a way that few other books do. **Fast Pasta** Konemann, 1996 **New and Developing Sources of Food Proteins** B.J.F. Hudson, 2012-12-06 The recent series of texts *Developments in Food Proteins* comprised in all seven volumes which were published in the course of the decade 1982-1991. Each volume contained inter alia one or more chapters that were concerned with new or developing sources of food proteins. Most of these have now been collected together in an up-dated and re-evaluated form for the present volume. *New sources of food proteins* includes those sources that are unconventional, that are still of very limited significance in market terms or that are at present of very localized use. Several of these were included in *Developments in Food Proteins*. One of them, algae, appeared both in Volume 1 and in an up-dated form in Volume 7. It is therefore not included here. Others such as yeasts and bacteria have not yet increased in practical importance as potential food components beyond the long-term promise already evident at that time. However, leaf protein as described in the present Chapter 10 has moved from the original rather crude concept to a much more sophisticated product in the form of Rubisco. Fungal protein as Quorn Chapter 11 has also proved to be potentially of real food value. Developing sources of food protein are those sources that have always been basic items in human diets. *The McDonaldization of Society* 5 George Ritzer, 2008 This book has been a fabulous success with students because it combines elements of critical social theory, readability and popular culture. Charles Frederick Jr, Indiana University. One of the most noteworthy and popular sociology books of all time. *The McDonaldization of Society* demonstrates the power of the sociological imagination to today's readers in a way that few books have been able to do. Key Features of the new edition: brand new chapter examining the Starbucks phenomenon and its relationship to McDonaldization; updated examples of McDonaldization including online dating services e.g. match.com, Viagra, MDMA, ecstasy, text messaging, Ikea and megachurches; an increased focus on globalization including an examination into the relationship between McDonaldization and the environment. **Fast Finger Snacks**, 1994 **Encyclopedia of Junk Food and Fast Food** Andrew F. Smith, 2006-08-30 Eating junk food and fast food is a great all-American passion. American kids and grownups love their candy bars, Big Macs and supersized fries, Doritos, Twinkies and Good Humor ice cream bars. The disastrous health effects from the enormous appetite for these processed fat and sugar-loaded foods are well publicized now. This was particularly dramatically evidenced by Super Size Me 2004 filmmaker Morgan Spurlock's 30-day all-McDonald's diet in which his liver suffered the same poisoning as if he had been on an extended alcohol binge. Through increased globalization, American popular food culture is being increasingly emulated elsewhere in the world such as China with the potential for similar

disastrous consequences This A to Z reference is the first to focus on the junk food and fast food phenomena from a multitude of angles in addition to health and diet concerns More than 250 essay entries objectively explore the scope of the topics to illuminate the American way through products corporations and entrepreneurs social history popular culture organizations issues politics commercialism and consumerism and much more Interest in these topics is high This informative and fascinating work with entries on current controversies such as mad cow disease and factory farming the food pyramid movie tie ins and marketing to children will be highly useful for reports research and browsing It takes readers behind the scenes examining the significance of such things as uniforms training packaging and franchising Readers of every age will also enjoy the nostalgia factor learning about the background of iconic drive ins the story behind the mascots facts about their favorite candy bar and collectables Each entry ends with suggested reading Besides an introduction a timeline glossary bibliography resource guide and photos enhance the text Sample entries A Advertising Automobiles Ben Burger King Carhops Center for Science in the Public Interest Christmas Cola Wars Employment Fair Food Fast Food Nation Hershey Milton Hollywood Injury Krispy Kreme Lobbying Nabisco Obesity PepsiCo Salt Soda Fountain Teen Hangouts Vegetarianism White Castle Yum Brands Inc The Oxford Companion to Food Alan Davidson, 2014 the best food reference work ever to appear in the English language read it and be dazzled Bee Wilson New Statesman First published in 1999 the ground breaking Oxford Companion to Food was an immediate success and won prizes and accolades around the world Its blend of serious food history culinary expertise and entertaining serendipity was and remains unique Interest in food cooking and the culture surrounding food has grown enormously in the intervening period as has the study of food and food history University departments international societies and academic journals have sprung up dedicated to exploring the meaning of food in the daily lives of people around the world alongside an ever increasing number of articles books programmes and websites in the general media devoted to the discussion of food making the Oxford Companion to Food more relevant than ever Already a food writing classic this Companion combines an exhaustive catalogue of foods be they biscuits named after battles divas or revolutionaries body parts from nose to tail toe to cerebellum or breads from the steppes of Asia or the well built ovens of the Mediterranean with a richly allusive commentary on the culture of food expressed in literature and cookery books or as dishes peculiar to a country or community While building on the Companion's existing strengths Tom Jaine has taken the opportunity to update the text and alert readers to new perspectives in food studies There is new coverage of attitudes to food consumption production and perception such as food and genetics food and sociology and obesity New entries include terms such as convenience foods drugs and food Ethiopia leftovers medicine and food pasta and many more There are also new entries on important personalities who are of special significance within the world of food among them Clarence Birdseye Henri Nestl and Louis Pasteur In its new edition the Companion maintains its place as the foremost food reference resource for study and home use **Fast Cakes** Koneman, Konemann Staff, 1999-03 Betty Crocker Cookbook, 12th
