A note from the publisher

In order to provide our students with high quality revision for their science and science applications, we have brought a team of science teachers working together to produce a revision guide for the specification of the combined science (9–1) specification which is aimed to help students to understand and appreciate the importance of the development of subject skills, including understanding the scientific process.

Our authors have all worked and practised as science teachers in secondary and primary schools in order to ensure that the content is accurate and up to date. We have also included a number of practical suggestions for the learning of science in a classroom.

We and our authors have made every attempt to ensure that errors in this specification are corrected.
