Economic Development In Africa:

African Economic Development Christopher Cramer, John Sender, Arkebe Oqubay, 2020-06-10 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Unevenness and inequalities form a central fact of African economic experiences. This book challenges conventional wisdoms about economic performance and possible policies for economic development in African countries using the striking variation in economic performance as a starting point. African Economic Development: Evidence, Theory and Policy highlights not only differences between countries but also variation within countries. It focuses on issues relating to gender, class and ethnic identity such as neonatal mortality, school dropout and horticultural and agribusiness exports. Variations in these areas point to opportunities for changing performance, reducing inequalities, learning from other policy experiences and escaping the ties of structure and the legacies of a colonial past. African Economic Development rejects teleological illusions and Eurocentric prejudice, criticizing a range of orthodox and heterodox economists for their cavalier attitude to evidence. Instead, it shows that seeing the contradictions of capitalism for what they are fundamental and enduring may help policy officials protect themselves against the misleading idea that development can be expected to be a smooth linear process or that it would be if certain impediments were removed. Drawing on decades of research and policy experience, this book combines careful use of available evidence from a range of African countries with economic insights to make the policy case for specific types of public sector investment.

Economic Development in Africa Godfrey Mwakikagile, 1999 This new book provides analyses of capitalism versus socialism as well as case studies illuminating the latest economic developments in the shift taking place in Africa. BOOK JACKET

African Economic Development Emmanuel Nnadozie, Afeikhena Jerome, 2019-05-08 In a sweeping survey of African economies, leading scholars offer the latest research into the biggest current influences on African growth and development, taking account of relevant institutional contexts as well as significant or unique problems that have slowed Africa's progress.

Economic Integration and Development in Africa Henry Kyambalesa, Mathurin C. Hounnikpo, 2016-04-29 The debates over what African economic integration and development actually entails continue across international economic organizations, national governments and NGOs. Despite the glare of media attention and the position this issue has on international political agendas, few comprehensive accounts exist that fully examine why this process will be inevitable in the 21st century and how integration of national economies can be attuned to attaining the socio-economic goals and aspirations of member countries. This book addresses this problem. It combines theory with application, enumerating the imperatives and initiatives governments will be forced to confront, providing insights for educators and students in African development, for policy makers in African governments and for inter-governmental organizations.

Economic Development in Africa Olusola Akinrinade, J. Kurt Barling, 2013-11-07 Economic development is one of the key

issues that has confronted Africa since the beginning of independence more than a quarter century ago. The countries of Africa have not only recognised the need for international assistance but also the need for self help along with various collective efforts in tackling the problems of development. The principal concern of Economic Development in Africa is with the contributions of the international environment to the development process in Africa. It considers efforts conceived within bilateral, multilateral and regional frameworks acting as an introduction to the economic and political dimensions of these approaches. This specially commissioned collection brings together a number of scholars working in the field of International Relations with specialist interest in Africa.

Economic Development in Africa, 2000 *Economic Development for Africa South of the Sahara* E. Robinson, 1964-06-01

[Accelerated Economic Growth in West Africa](#) Diery Seck, 2015-07-07

The book provides a detailed analysis of the causes of West Africa's current economic high growth episode and proposes ways to extend it sustainably. It examines the potential role of regional integration through the establishment of a common currency union and of other policy options that can enhance economic growth. The authors suggest appropriate methods of coordination between macroeconomic policy and industrialization to achieve higher economic growth and also examine why pro-poor strategies have not been successful. The book underscores the challenges and opportunities that will arise from the structural change to the region's economies resulting from the necessary investment in manufacturing exports, ICT and infrastructure which are key vehicles for extended growth. Readers will learn how the region can better reach its developmental goals by securing and perpetuating political liberty and transactional freedom for all its citizens.

The Economies of Africa Peter Robson, D. A. Lury, 2010-11-26

This reissue first published in 1969 brings together structural and analytical studies of seven single African countries together with two studies of groups of countries which although politically separate have in the past had close economic links. These countries are Algeria, Cameroon, Ghana, Ivory Coast, Liberia, Nigeria and the Sudan. The groups are East Africa comprising Kenya, Uganda and Tanzania and Central Africa comprising Rhodesia, Malawi and Zambia. The countries have been chosen to bring out the main contemporary economic issues arising in the efforts of the independent African States to achieve economic growth. The book will be invaluable to students and practicing economists concerned with Africa and the developing economies generally.

Economic Development in Africa United Nations Conference on Trade and Development, 2005

Given the lack of adequate resources to finance long term development in Africa, the need to attract foreign direct investment has become a key aspect of development strategies in recent years advocated by policymakers at national, regional and international levels. This publication evaluates the benefits and disadvantages that FDI brings for the host country in efforts to achieve sustainable economic development and calls for a more balanced strategic approach which sufficiently recognises the economic and development challenges facing African countries.
