Economic Transformation In Russia:

Economic Transformation in Russia Anders Åslund, 1994 For all the apparent chaos in Russia an economic policy is being pursued The contributors to this volume are the architects of this policy The burden of implementation also falls on their shoulders This volume aims to give the reader the necessary insights required to evaluate these policies and measures their successes and failures over the years to come

Incentives and Institutions Serguey Braguinsky, 2000-03-19 Finally they discuss in detail the specific components of the economic processes that are necessary for economic transition in general and they draw lessons that can be applied to other nations dealing with similar transitions

BOOK JACKET *Toward a Russian market economy* Simon M. Ingold, 2008-01-21 Seminar paper from the year 2006 in the subject Politics Region Russia grade Honors Bestnote Yale University course Dynamics of Russian Politics language English abstract The story of the post Soviet economic transformation of Russia told by radical reform advocates is compelling in the sense that it is cogent within the limited confines of economic logic However it is not exhaustive Rather it should be regarded as a snapshot view from a very specific and in particular an ahistorical perspective We will contrast this perspective with an alternative interpretation of reform that takes into account exogenous factors namely culture and history As Hedlund suggests there are good reasons why economics in particular would be insensitive to the highly specific conditions that marked Russia s attempted economic transition We will begin our remarks with a short overview of the transformation process according to the positivist view of the economist and radical reform advocate Anders s lund The purpose of the discussion is not to merely recapitulate the chronology of transformation but rather to point out the underlying assumptions on which economic policy rested These are crucial for understanding why reform deviated from the path forecasted by the proponents of radical reform In a second step we will attempt a critical appraisal of these assumptions and look at some of the adverse implications that followed from them Third a different interpretation of the transformation process will be introduced that puts path dependence at the center of analysis putting the approach taken by radical reformers in a different light Finally as a concluding remark we will briefly go into the practical consequences as implied by the two different approaches regarding the strength and stability of the Russian Federation the prospects for liberal democracy and the prospects for an effective market economy

[The Economic Transformation of the Soviet Union, 1913-1945](#) Robert William Davies, Mark Harrison, S. G. Wheatcroft, 1994 Leading scholars in the field analyse the Soviet economy sector by sector to make available in textbook form the results of the latest research on Soviet industrialisation

Russia's Economic Transitions Nicolas Spulber, 2003-04-10 Russia s Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000 The first transition under Tsarism involved the partial break up of the feudal framework of land ownership and the move toward capitalist relations The second following the Communist revolution of 1917 brought to power a system of state ownership and administration a sui generis type of war economy state capitalism subjecting the economy s

development to central commands The third started in the early 1990s and still unfolding is aiming at reshaping the inherited economic fabric on the basis of private ownership The three transitions originated within different settings but with a similar primary goal namely the changing of the economy's ownership pattern in the hopes of providing a better basis for subsequent development The treatment's originality impartiality and historical breadth have cogent economic social and political relevance

Economic Growth and the Middle Class in an Economy in Transition Zoya Nissanov, 2017-01-24
This book studies the evolution of the middle class in Russia after the fall of the Soviet Union Using data from the RLMS Russian Longitudinal Monitoring Survey the volume covers the period of transition 1991-2008 during which many fundamental economic reforms were implemented The first part of the book is devoted to a discussion of the concept of middle class and a description of the economic situation in Russia during the transition period Particular attention is given to variations in the distribution of Russian incomes and the estimated importance of the middle class The second part of the book focuses on the link between the middle class and income bipolarization The third and last section of the book uses the semiparametric mixture model to discover how many different groups may be derived from the income distribution in Russia as well as what the main socio-economic and demographic characteristics of those groups are The mobility of households into and out of the middle class during the transition period is also studied in hopes of determining the factors that contribute to such mobility Using rigorous empirical methods this volume sheds light on a relatively unstudied economic group and provides insight for countries which are about to enter a transition period As such this book will be of great interest to researchers in economics and inequality as well as professionals and practitioners working with international organizations

The Economic Development of Russia, 1905-1914 Margaret Miller, 1926

The Logic of Economic Reform in Russia Jerry F. Hough, 2004-06-23
This book examines the failure of economic reform in Russia since 1991 when Boris Yeltsin proclaimed his commitment to economic stabilization privatization and price liberalization Optimism over Russia's market reforms vanished with the crash of August 1998 when the ruble lost over 70 percent of its value and banks defaulted on their debts and forward currency contracts Contrary to Yeltsin's reform promises the Russian economy of the 1990s more closely resembled a Soviet model than a market-driven one The Logic of Economic Reform in Russia illuminates the general problems of establishing market economies in settings where the institutional system to support the market has not had decades to develop Suggesting that corruption may be associated with growth in the early stages of capitalism Jerry F. Hough argues that the disappointing results of Yeltsin's reform efforts were not the product of Russian culture or history but the logical consequences of rational men responding to the incentive system created by economic reform

Gaidar's Revolution

Petr Aven, Alfred Kokh, 2015-07-02 After the collapse of the Soviet Union a team of young economic reformers led by Yegor Gaidar worked to create a new economic future for Russia Against an overwhelming threat of looming hunger and civil war they created a market economy which is still in place today In the face of crisis a process of shock therapy involving the end of price regulation the introduction of privatisation and a reduction in public spending appeared necessary Their plans have been the subject of controversy ever since the path to the new economy was not smooth and Russia continued to struggle with economic crises throughout the 1990s Yet Gaidar s plans have been widely praised for saving the country from complete collapse For the first time in this book the participants in the process reveal their experiences during those frantic days their insights into Yegor Gaidar and of the formation of post Soviet Russia In doing so this book provides a unique perspective on contemporary Russia making it an indispensable resource for understanding its economic and political complexities

Challenges for Russian Economic Reform Alan Smith, 2010-12-01 The transition to a market economy proves to be far more difficult in Russia than in the former centrally planned economies of eastern Europe The Russian economy continues to face serious problems including substantial inflationary pressures falling output and capital flight The most positive aspect of the transition has been the relatively fast pace of privatization *Challenges for Russian Economic Reform* contains papers published by the post Soviet Business Forum at the Royal Institute of International Affairs that have been revised for this volume The contributors specialists in Russian economic affairs examine the principal economic and institutional factors that have hindered transformation in Russia The sheer size of the country has complicated the problem of exposing domestic producers to foreign competition and has weakened the ability of central authorities to control the regions Economic stabilization has been hampered by the difficulties in establishing sound economic relations with the former Soviet republics David Dyker and Michael Barrow analyze the problems of monopoly and competition policy in Russia Philip Hanson assesses the obstacles to economic stabilization posed by regional economic interests and examines regional diversity in reform implementation Michael Kaser examines the problems of privatization by regions and sectors in Russia and the CIS and the institutional obstacles encountered by foreign investors Alan Smith explores the problems created by the breakup of traditional trade and payment relations with the non Russian republics of the former Soviet Union and bilateral trade links with Eastern Europe He also provides an overall assessment of Russian economic performance since the collapse of communism

Property to the People: The Struggle for Radical Economic Reform in Russia Julie Nelson, Irina Y. Kuzes, 2021-01-31 This text sets Russia s current economic transformation in the context of economic and political change and provides an overview of issues central to the economic reform debate in Russia It also highlights the human dimension of large scale economic change through case studies and interviews

Russia's Economy in an Epoch of Turbulence Vladimir Mau, 2017-11-27 Over the course of the last thirty years post communist Russia has either been struggling with crises discussing the lessons learned from past crises or attempting to trace the contours of future crises Based on the author

s own experiences and his research over this long period this book traces the logic of the development of the crises and the anti crisis policies and shows the continuity or discontinuity in determining particular solutions It demonstrates how perceptions of the priorities for economic policy and the problems of economic growth and the formation of a new model and its alternatives were formed and how they changed It also outlines the evolution of ideas about the role of social politics and human capital sectors in addressing anti crisis and modernization issues and discusses the changing views on the institutional and structural priorities for Russia s development This is an important book on an economic subject of crucial global significance by a leading participant

Russia's Capitalist Revolution Anders Åslund, Åslund Anders, 2007 This book focuses on the transformation from Soviet Russia to Russia as a market economy and explores why the country has failed to transform into a democracy Aslund provides a broad overview of Russia s economic change highlighting the most important issues and their subsequent resolutions

Shaping the Economic Space in Russia Stefanie Harter, Gerald Easter, 2018-04-27 This title was first published in 2000 As the El tsin era has now drawn to a close numerous questions remain unanswered regarding the course of Russia s post Communist traditions El tsin s exit from the presidential stage provides an opportunity to assess the achievements of Russia s multi faceted reforms to explain the factors that have most shaped the reform process and to identify the trends that are likely to continue under a presidential successor This volume embodies such an effort Its contents are the product of a conference held in May 1999 at the Federal Institute for East European and International Studies in Cologne Germany The institute convened an international group of scholars representing a variety of academic approaches to the study of transition economies in general and Russia in particular The title of this volume has been taken from the overarching theme of the conference The goal was determine the extent to which pre existing structures and norms of economic and political life have been fundamentally altered by the El tsin administration s reform campaigns and how these factors themselves have influenced the reform process

OECD Reviews of Regulatory Reform: Russia 2005 Building Rules for the Market OECD, 2005-11-17 This review of regulatory reform in Russia covers the overall economic context the government s capacity to manage regulatory reform competition policy and enforcement and market openness It also examines the electricity and railroad sectors

Russia's Economic Transformation in the 1990s Anders Åslund, 1997 This book is a collection of articles on the Russian economic transformation written between 1991 and 1994 It offers a unique inside perspective of the reform process The articles were written at the height of the reforms and they reflect the knowledge thoughts and ideas retained by the leading reformers and their advisers whilst attempting a radical transformation of the Russian economy The contributors while unanimously advocating radical reform also provide substantial empirical evidence of the pressing economic issues and concerns of the period Although most of the contributors worked for the Russian government when they wrote their articles they are still remarkably critical of the reform process maintaining that the reforms were not radical enough either in content or in approach
