Gem-stones and Their Distinctive Characters George Frederick Herbert Smith,1913 *Gemstones and their distinctive Characters* Frederik Herbert Smith,2020-03-06 Excerpt It has been my endeavour to provide in this book a concise yet sufficiently complete account of the physical characters of the mineral species which find service in jewellery and of the methods available for determining their principal physical constants to enable a reader even if previously unacquainted with the subject to have at hand all the information requisite for the sure identification of any cut stone which may be met with For several reasons I have dealt somewhat more fully with the branches of science closely connected with the properties of crystallised matter than has been customary hitherto in even the most comprehensive books on precious stones Recent years have witnessed many changes in the jewellery world Gem stones are no longer entirely drawn from a few well marked mineral species which are on the whole easily distinguishable from one another and it becomes increasingly difficult for even the most experienced eye to recognise a cut stone with unerring certainty So long as the only confusion lay between precious stones and paste imitations an ordinary file was the solitary piece of apparatus required by the jeweller but now recourse must be had to more discriminative tests such as the refractive index or the specific gravity the determination of which calls for a little knowledge and skill Concurrently a keener interest is being taken in the scientific aspect of gem stones by the public at large who are attracted to them mainly by aesthetic considerations *Gem-stones and Their Distinctive Characters* George Frederick Herbert Smith,1937 The National Union Catalog, Pre-1956 Imprints ,1978 **The Mineralogical Magazine and Journal of the Mineralogical Society** ,1925 **Precious Stones and Gems, Their History and Distinguishing Characteristics** Edwin William Streeter,1882 **An Introduction to Mineralogy** John Lee Comstock,1839 The Bookman ,1911 The Encyclopædia Britannica ,1910 *Ure's Dictionary of Arts, Manufactures, and Mines: D* Andrew Ure,Robert Hunt,1878 *Mineralogical Abstracts* ,1925 Catalogues Bernard Quaritch (Firm),1924 *Nature* Sir Norman Lockyer,1912 Journal of the Franklin Institute Franklin Institute (Philadelphia, Pa.),1914 Vols 1 69 include more or less complete patent reports of the U S Patent Office for years 1825 1859 cf Index to v 1 120 of the Journal p 415 The Publishers' Circular and Booksellers' Record ,1912 **Books Added** Chicago Public Library,1916 The Magazine of Art Marion Harry Spielmann,1878 British Books ,1912 **The Antiquary** ,1912 *Encyclopaedia Britannica* ,1953
