Productivity tip:

Should you study on a full stomach? Breakfast is an important meal – make sure you have eaten something before you sit down and study. It's hard to think on an empty stomach. However, know that being too full may also hinder effective studying. Study your body and eat enough to allow you to still work effectively.

A. LESSON PREVIEW/REVIEW

Introduction

Small changes can be important in written work. There are two distinct processes in making changes in writing: revising and editing. Essentially, revision is a recurrent process of writing and re-writing whereas editing focuses more on stylistic and grammatical facts. As a student and future professional, revising and editing are healthy routines to master as it ensures clearer communication.

Activity 1: What I Know Chart, part 1 (3 mins)

For this activity, think about the 3 questions found in the second column. Write your answers in the first column, *What I Know*. Leave the third column blank at this time. There is no need to read ahead to find answers – the purpose of Activity 1 is to answer the questions with what you know now. ☺

| What I Know | Questions: | What I Learned (Activity 5) |
|-------------|--|-----------------------------|
| | 1. In publishing, is it about having a plan now and you're ready to start? | |
| | 2. Is it in editing that you are fine tuning your manuscript line by line? | |
| | 3. Is it in revising that you have overhauled your story? | |
