## **Gender Mainstreaming In The Eu Principles And Practice:**

Gender Mainstreaming in the EU Sonia Mazey,2001 In 1996 the European Union formally adopted the equality strategy of gender mainstreaming This strategy seeks to achieve equality between men and women by integrating a gender perspective into all public policies in order to ensure that the often different needs of women and men are taken into account This dossier examines the impact of gender mainstreaming upon EU policy making procedures and key EU policies The discussion is divided into three parts Part One clarifies the concept of gender mainstreaming highlighting the theoretical justification for and policy making implications of this approach Part Two explains how and why gender mainstreaming came to be adopted by the EU Part Three evaluates the impact of gender mainstreaming upon the EU policy making process up to the time of publication

**Gender Mainstreaming in the EU Development Cooperation** Stefanie Kessler,2008-09 The essay examines the adoption and implementation of gender mainstreaming in the development cooperation of the European Union EU It reviews the theoretical concept of gender mainstreaming linked to feminist theory in order to reflect upon the adaptation of gender mainstreaming within the EU Key issues are the political willigness of the EU towards gender equality gender training of staff internal assessment and evaluation the two sidedness of gender mainstreaming the representation of women in decision making gender analyses of the social contexts and the actual impact of gender mainstreaming

Equal Pay and Gender Mainstreaming Lars Magnusson, Lilja Mósesdóttir, Amparo Serrano Pascual, 2003 Argues that legal guarantees will not suffice in tackling the pay gap for women Advocates a pluralist approach comprising appropriate labour contracts and working time participation in decision making etc Includes a number of European country reports on experiences made in overcoming barriers to equal pay

**Gender Politics in the Expanding European Union** Silke Roth, 2008 In May 2004 after bringing their legislation into accordance with EU regulations ten more countries joined the European Union The contributors to this volume assess the impact of this historical development on gender relations in the new and old EU member states Instead of focusing on either western or eastern Europe this book investigates the similarities and differences in diverse parts of Europe Although initially limited gender equality was part of the original framework of the European Union an organization often more open than national governments to feminist demands as this volume illustrates with case studies from eastern and western Europe The enlargement process thus provides some important policy instruments for increasing equality between men and women *Gender, Equality and Social*

*Justice* Sharron FitzGerald, Jane Freedman, 2022-09-19 This book addresses a gap in both contemporary theorising and empirical analysis of the European Union's EU law and policy frameworks on migration sex work and anti trafficking Drawing on the authors previous research on these policies and with their practical experience of engaging with various EU institutions in law and policy making fora around gender equality and justice the work examines the processes involved in constructing and enacting policy frameworks and legal interventions on these issues within a feminist analytical framework The authors map how EU agenda setting operates and detail the roles that various EU institutions external groups and actors including non governmental organisations play in promoting or blocking policy on these three issues The book draws on feminist theorising on gender policy making and social justice to develop a general theoretical framework to help us understand how and why a consensus has seemingly been achieved at EU level on what constitutes gender equality in these three policy areas The book presents a valuable resource for academics researchers and policy makers in Law Migration EU policy making and Gender Studies

**Public Policy to Reduce Inequalities across Europe** Paul Cairney, Michael Keating, Sean Kippin, Emily St Denny, 2022-07-28 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations There is a broad consensus across European states and the EU that social and economic inequality is a problem that needs to be addressed Yet inequality policy is notoriously complex and contested This book approaches the issue from two linked perspectives First a focus on functional requirements highlights what policymakers think they need to deliver policy successfully and the gap between their requirements and reality We identify this gap in relation to the theory and practice of policy learning and to multiple sectors to show how it manifests in health education and gender equity policies Second a focus on territorial politics highlights how the problem is interpreted at different scales subject to competing demands to take responsibility This contestation and spread of responsibilities contributes to different policy approaches across spatial scales We conclude that governments promote many separate equity initiatives across territories and sectors without knowing if they are complementary or contradictory This outcome could reflect the fact that ambiguous policy problems and complex policymaking processes are beyond the full knowledge or control of governments It could also be part of a strategy to make a rhetorically radical case while knowing that they will translate into safer policies It allows them to replace debates on values regarding whose definition of equity matters and which inequalities to tolerate with more technical discussions of policy processes Governments may be offering new perspectives on spatial justice or new ways to reduce political attention to inequalities

[Gendered Approaches to Spatial Development in Europe](#) Barbara Zibell, Doris Damyhanovic, Ulrike Sturm, 2019-03-27 This book explores the extent to which gendered approaches are evident and effective in spatial development in selected European countries Beginning with an introduction to theories and concepts of gender space and development the book includes a brief historical review of gender in spatial planning and development throughout

Europe in general and an overview of different national frameworks in European countries comparing legal organisational and cultural similarities and differences This is followed by a critical reflection on how simplifications and stereotypes of gender concepts are used in the practice of spatial development The main part of the book offers a transnational discussion of planning practices on selected thematic topics It starts with gender sensitivity in urban master planning and at neighbourhood level referring to different types of planning manuals Furthermore the book focuses on gender sensitive evaluation in urban planning as well as international agendas for sustainable development as a framework for a new generation of gender equality policies The chapter authors assert that climate change migration and austerity have threatened gender equality and therefore spatial development needs to be especially alert to gender dimensions The editors end with an outlook and suggestions for further action and research on gender issues in spatial development With inputs from some of Europe s leading thinkers on gender space and development this volume is designed to inspire students scholars and practitioners to reflect upon the contribution that gendered approaches can make in the various fields of spatial development and environmental planning

*European Access*, 2002 [The ILO Principle of Equal Pay and Its Implementation](#) Paula Määttä, 2008 [Women in Trade Unions](#) Homa Dean, 2006 Focuses on what trade unions can do to increase gender equality within their own structures and wider society by using gender mainstreaming [Administration](#), 2005 **Critical Studies of Gender Equalities** Eva Magnusson, Malin Rönnblom, Harriet Silius, 2008 There is an increasing awareness that gender equality is not something that just is in unproblematic and natural ways but that it may be understood and packaged in several ways with quite different consequences It therefore makes good sense to ask with the authors in this book how gender equality is understood and practised in the Nordic countries with their avowedly good record on gender equality measures It makes especially good sense to look closely at the consequences and difficulties that arise out of the many faceted meanings attached to gender and equality in politics and policies as well as in daily life In this book eleven Nordic scholars offer critical analyses of current dislocations dilemmas and contradictions in the field of Nordic gender equality They have studied issues to do with constructing state and nation regulating political practices and producing gendered subjectivities The authors are affiliated with universities in Denmark Finland Norway and Sweden and united in seeing the need for a critical scholarly stance on Nordic gender equality policies and practices [International Law](#) Doris E Buss, Ambreena Manji, 2005-06-21 This book brings together feminist scholars to explore the directions and tensions in feminist engagement with various areas of international law *Die Gleichstellungspolitik in der Europäischen Union* Annette Jünemann, Carmen Klement, 2005 **The British National Bibliography** Arthur James Wells, 2009 **The Review of Policy Research**, 2002 Some vols include special issues *The European Commission* David Spence, Geoffrey Edwards, 2006 This is the first update since 1997 of a complete guide to the way the Commission works and its relationship to the other European institutions The edition has been completely revised and rewritten with contributions from a diverse
