Ficción Continua:

Ficción continua José María Merino, 2004 *Narración y ficción* Antonio Garrido Domínguez, 2022-04-28 Este libro aborda el análisis de la compleja noción de narración en sus diversas manifestaciones y desde una perspectiva preponderantemente diacrónica. Puede muy bien considerarse un recuento de sus diversas acepciones a lo largo del tiempo comenzando por el mundo antiguo Platón Aristóteles Luciano Pseudo Longino y deteniéndose en aquellos momentos en que se está gestando o se lleva a cabo un cambio de paradigma como es el caso del Renacimiento Sydney Cervantes el Romanticismo fundamental para la moderna consideración del concepto y de manera especial en los planteamientos surgidos en la segunda mitad del siglo XX y comienzos del XXI el mimético realista nuevas versiones sintético formal semiótico y pragmático constructivismo poética de la imaginación hermenéutica nueva ficción y cognitismo fundamentalmente **La ficción discontinua** Juan Frau, 2024-05-30 La ficción discontinua Estrategias de lectura y unidad de la obra literaria parte de una revisión del concepto de obra y de las nociones tradicionales de unidad coherencia o integridad y de una indagación en sus límites habituales el principio y el final para proceder al análisis del concepto de ficción discontinua entendido como la reapertura del mundo ficcional mediante segundas partes o continuaciones La continuación constituye una oportunidad manifiesta de introducir variaciones en el modelo original y puede entenderse como reescritura corrección ampliación o compleción de la obra anterior En ella se conjugan dentro de una variada casuística tendencias contrarias como la dependencia y la autonomía la confirmación y la oposición la apertura y el cierre Toda continuación es en esencia una eliminación de lugares de indeterminación e invita al lector a un ejercicio hermenéutico complejo El autor de ficciones discontinuas intenta en cierto modo transgredir los límites naturales de la obra y busca una respuesta ante la angustia o la impotencia que conlleva el carácter finito de los textos Si el final recuerda por analogía a la muerte o la extinción una prolongación ulterior de la obra no puede sino remitir de forma simbólica al concepto de resurrección o renovación Es un medio condenado al fracaso y por ello mismo heroico de intentar que la obra literaria se aproxime a las dimensiones de la vida y de acercar los mundos de ficción incompletos por definición a los mundos reales Teoría de la literatura de ciencia ficción Fernando Ángel Moreno, 2015-04-01 Pocos géneros literarios han tenido tanta influencia en el diseño la arquitectura la moda la ingeniería el arte la música el cine o la literatura de nuestro tiempo como lo ha hecho la ciencia ficción La historia de los dos últimos siglos difícilmente se comprende sin ella y su capacidad de reflexión y crítica y su habilidad para conjurar imágenes impactantes y marcar tendencias Teniendo en cuenta que hace décadas que ha despertado el interés de los teóricos investigadores y ensayistas de todo el mundo parece un poco paradójica la escasez de estudios científicos en castellano que aborden la ciencia ficción en su conjunto desde la seriedad y el rigor académicos Qué es y qué no es ciencia ficción Cuáles son sus subgéneros y cuáles pueden interesar más a cada lector Se escribe buena ciencia ficción en castellano Quiénes son los escritores más importantes y a qué obras acudir primero Fernando Ángel Moreno aborda aquí todas estas cuestiones además de

analizar los principales tropos y técnicas narrativas de la ciencia ficción mostrar su evolución a lo largo de la historia su relación y diferencias con otros géneros literarios cercanos y en general ofrecer un panorama amplio y explorado en detalle de la ciencia ficción literaria *Estados Unidos en el cine de ciencia ficción Hollywood 1950-2010* Oriana Garcés Morales, Denisse Martínez Fernández, Julián Alberto Pérez Velásquez, 2023-05-10 La ciencia ficción pone en cuestionamiento la imagen de lo humano y de la sociedad A través de espectacularizadas historias y deslumbrantes efectos especiales los filmes logran desfamiliarizar la realidad y presentar con nuevas formas los conflictos y amenazas reales tales como la corrupción las tiranías los conflictos sociales la crisis ambiental las luchas raciales y de género Los autores a partir de distintos filmes identifican a través de sus discursos imágenes y narrativas la forma en que se presentan los problemas sociales el contexto en que emergen y el tipo de valores desplegados *Spain is Different?* Dale Knickerbocker, 2021-12-15 Employs a variety of theoretical approaches including critical and genre theories archetypal criticism and biblical studies Analyses an important literary trend apocalyptic fiction around the end of the second millennium Contextualises and explains the Spanish novels historically and compares and contrasts them with other global apocalyptic fictions Supports its observations with close reading of the texts *Periplos del futuro. Antología de ciencia ficción colombiana* Rodrigo Bastidas, 2023-10-31 Los relatos reunidos en este libro piensan un futuro diferente para el país La ciencia ficción permite ver cómo se relacionan las personas con la tecnología y el poder Los autores de estos cuentos piensan un futuro diferente plantean los dilemas de los cuerpos intercambiables y de las identidades modificables dialogan directamente con sistemas de comprensión del mundo y los ponen en jaque al enfrentarlos a las posibilidades de nuevas tecnologías formulan respuestas a problemas sociales interrogan a las ciencias y las artes crean utopías denuncian distopías y exponen las posibilidades que existen en cada individuo Los relatos reunidos en este libro se alzan el camino que seguir el género en los próximos años y consolida su importancia para la literatura del país **Cuentos reales de innovación para empresas que gestionan ficción 2** Walter Fabian Torre y Agostina Belén Torre, 2023-02-28 Es el quinto libro de la serie La Inteligencia No es un M todo que busca explicar al igual que toda la serie de libros precedentes la exigencia ineludible que las organizaciones buscan imponerse para hacer de la ficción una forma de gestión Este libro sigue apostando a explicar a través de una serie de cuentos independientes forma inusual por su estilo y contenido nos acerca a comprender la profundidad de la innovación como una manera inteligente de superar obstáculos El libro da vida a conceptos obvios de gestión que en general están mal interpretados que deben ser estudiados para potenciar la innovación dentro de una organización La urgencia la prioridad la importancia la oportunidad la hipocresía el asombro la rutina son solo algunos de los protagonistas convertidos en personas Esta serie de cuentos es la primera vez en el Management que abordan a la innovación desde un replanteo lingüístico y de comprensión profunda de la innovación Para resumir de una manera simple podríamos decir que estos libros logran como nos gusta decir con Agostina explicar el concepto de innovación en un esfuerzo inquietante y atrevido de redefinir lo obvio Agostina y Walter **Stoa BA** Gustavo
